No. 15.

WINNIPEG, MANITOBA

April 17, 1964

## ERNE GARRETT RETIRES

Erne W. Garrett, Chief Instructor at ANS, receives his service scroll (representing 27 years service) from C.A. Willis.

## Super Park Nudges Airport

The Assiniboine Golf Course has been purchased by the City of St. James in a land-shuffle deal.

Mayor A. W. Hanks of St. James said that the Assiniboine Golf Club has accepted the city's offer of \$135,000 and 140 acres of land in the northwest corner of St. James in exchange for the club's present land holdings.

The plans call for a central recreational area with combined facilities for a museum and other cultural purposes."

There will also be baseball diamonds, football and soccer fields, bowling greens, toboggan runs and badminton and basketball facilities," said Mayor Hanks.

Central flower gardens, an arena, playgrounds and off-street parking are planned.

There will also be an archery range, driving range, large checkerboard handstand, wading pool, outdoor skating rink, curling rink and facilities for lacrosse and tennis.

The city's recreation-cultural park will be bounded by Sharpe Street, Ness Avenue, Silver Street and Winchester Street. It will include a seven-acre, man-made lake, a swimming pool and a permanent enclosed hockey rink.

The golf club's new site is west of Moray Street and north of Ness Avenue. An 18-hole course is planned.

They will begin building their new quarters in May. The city will take over the club's present property Oct. 1, 1965.

## DAVID SAW BATHSHEBA

When David saw Bathsheba splashing in the tub he was so taken with her beauty that he rang up an old chum in postings and careers and arranged a nasty transfer for her husband Uriah. Then when Uriah's name came out under CASUALTIES, in the green sheets, he promptly married the widow. A top level investigation, of the whole mess, was made and as a result: David was forced to resign his commission and be content as a mere king; design requirements, for married quarters, were changed so that bathtubs were taken off the roofs and moved indoors and to this very day the people in postings and careers are reluctant to do favours for their old buddies.

A subtle change was innovated at this time; in order to prevent any further such incidents, records were introduced, correspondence was encouraged and central registries were set up in all headquarters buildings, and the witch at EN-DOR was put "Out of Bounds." Through the years this scheme has achieved its purpose inasmuch as there are so many things to read, forms to fill out, committees to serve on, and statistics to gather that the Bathshebas of the world aren't getting the attention they deserve.

Since it appears that statistics are here to stay (\*we must kiss the hand we cannot sever) it was decided back in November '63 to keep track of industrial accidents which required time off for medical attention. We reckoned we could work up an impressive formula to arrive at an accident rate—something like

$$\frac{22 \text{ (work days per month)} \times 8 \text{ (hrs. per day)} \times \text{the number of employees}}{\text{Number of accidents}}$$

But there is an alarming situation, shown by these statistics, which needs no formula.

It is a fact that every month we have had an injury to some technician's hands severe enough to need medical attention.

Let's look at your hands for a moment or two—put down this paper and really examine them as if they were the first pair of hands you had ever seen. Admire those smooth working, lubed for life, ball and socket joints we call knuckles. What a marvel that opposable thumb is, and the whole assembly fastens to the forearm with a nearly perfect universal joint. These hands come equipped with temperature and texture sensing elements. They will even provide their own extra protection at points of hard wear—calluses. There isn't an instrument or tool in your kit quite as adaptable or useful and yet, by golly, you fellows are sticking your fingers in electric fans, cutting them with knives or screwdrivers, dropping heavy objects on them and using them for substitute drill vices. There is no indication, in our records, of any machine or item of equipment being at fault. These injuries are the fault of the owner. Please be more careful—remember those hands can't be replaced with anything a fraction as good, and you earn your living with them.

Since last November we have had three head injuries severe enough to need medical attention.

Here again no defective machinery was involved. Technicians simply ran into things, namely: a truck door, an aeroplane propellor (not rotating) and the tail of an aeroplane.

Ever hear about the fellow who was buying a horse and after he had examined it he asked if he could see it move about the paddock. The horse was backed out of the stall and given a friendly pat on the rump, whereupon it trotted down the alleyway into the wall. The prospective buyer ventured an opinion that the horse was blind. The seller pushed back his 3X Stetson and said, "Naw, he ain't blind, he just don't give a damn." Can it be that these people who banged their heads ain't blind, they just don't give a damn?

Well that's statistics for you. Now if you'll all be just a little more careful, then you won't become one.

\*House slogan and short form guarantee of the Tubal-Cain Small Arms Co., makers of fine swords and razors.

## Notice To Parents

Within the next three weeks it is expected that a heavy collection of water will exist around the station skating rink area, adjacent to the RC Chapel, as a result of spring thaw. Under these condition this area presents an extreme hazard to small children who may stray into the grounds. A small child can drown in six inches of water. The runoff from the skating rink can conceivably collect to at least a foot in depth, depending on how rapidly melting takes place. The skating rink area has been placed out-of-bounds to all unauthorized personnel. Therefore parents, particularly those living in the area near the Stn skating rink, are advised to exercise close supervision of small children to keep them out of the skating rink area.

Explorations On Minority Groups

Three North American minority groups whose background and language differences can create disturbing situations and misunderstandings, will be the subject of a three-part series on CBC-TV's Explorations, beginning Monday, April 20, at 10:30 p.m. EST.

Entitled The Outsiders, the British-made films, produced by Television Reporters International and ATV will examine the problems of the French-speaking Canadians in Quebec; the Puerto Ricans of New York; and the Mexicans in Laredo, Texas.

On the April 20 program, reporter James Mossman interviews a number of Quebec extremists claiming to represent five million French-speaking Canadian, and attempts to place in perspective their centuries-old culture and heritage.

The following week the scene shifts to New York's East Side where the majority of the faces are brown and the language spoken is Spanish; where too-large families are forced to live in a ghetto, and youngsters have to fend for themselves in the streets.

The program focuses on a family of nine living in three squalid rooms. The father, a semi-literate fisherman, holds little hope of improving himself in one of the richest cities in the world. Interviewer Mossman points out that the only hope lies in the second generation.

Laredo, the cow-punching town of the popular western myth, is a divided area today. On one side of the Rio Grande is the American version of Laredo, and on the other side of the river is Mexico's Nueva Laredo.

On May 4, the final program of the series considers the problems that arise when two communities, one thriving and the other comparatively poor, exist side by side.

One of the major problems centres around the thousands of 'wetbacks' who enter the United States illegally. Although agreements between the Mexican government and Washington allow thousands of Mexicans to work in the U.S., there is no legislation to cover the 'wetbacks', some of whom work for as little as 50 cents an hour.

CPL. WILSON RETIRES

Cpl. K. A. Wilson of Stn. MSE section receives his service scroll from G/C D. A. Wilson.

MUSCULAR MIDGET

BURBANK, Calif. — A bug-like inter-satellite transfer craft may be ready in 1966 for hauling cargo between spacecraft and assembling structures while in orbit, Lockheed-California Company engineers reported today.

In a study sponsored by the Air Force Aero Propulsion Laboratory, Research and Technology Division of the Air Force Systems Command, Lockheed engineers proposed a one-man craft only six feet tall, weighing less than 1500 pounds and equipped with three mechanical arms. The craft might be able to handle loads much larger and heavier than itself in the weightlessness of space.

For example, Lockheed engineers note, four transfer shuttles working together might handle a 100,000-pound (earth weight) load.

The small aluminum vehicles might, if successfully developed, be used to:

- 1. Transfer personnel and cargo from one large orbiting space station to another, thus eliminating the need for bringing the large stations into contact.
2. Assist in the assembly of low orbit satellites or help build boosters in space for solar system penetration.
3. Handle maintenance and repair of space bases and unmanned satellites.
4. Perform emergency rescue missions.

5. Investigate and clear hazardous objects in space.

6. Train personnel and test experimental equipment.

Carrying 265 pounds of liquid rocket fuel, the shuttle craft could have a range of 20 miles. Its support oxygen supply would last up to 10 hours without replenishing.

Although moving in orbit around the earth at 17,500 m.p.h., the shuttle craft would travel at about 60-m.p.h. relative to nearby large satellites also in orbit.

Resembling a bladeless helicopter, the shuttle would have an autopilot and be able to hover in space, permitting the spacesuit-clad pilot to step outside if necessary.

Unless a hatch were opened, the cabin would be pressurized. However, a spacesuit would be a safety precaution.

The multi-windowed vehicles would be equipped with radio batteries for electrical power, an inflatable bumper, and a service hatch with an accordion-type extendible shelter for maintenance and repair of satellites.

CATHOLIC CHAPEL NEWS

Rev. V. Villeneuve W/C (Train-Command Captain). Rev. G. E. Grant S/L (Station Chaplain). VE 2-1311, Local 272.

MASSES

Sunday — 9 and 11 a.m. Weekdays — 4.40 p.m. Saturday — 11 a.m. First Friday — 4.30 & 8.30 p.m.

CONFESSIONS

Sunday-Friday — Before every Mass. Saturday — 1900-2000 hours. Sunday — Before and during both Masses. Other times — by appointment.

NOTE: If there is no priest in the parish, ring "Confession Service". Parents are asked to remind their children to come to Confession after school on Friday afternoon, that is, from 1600 to 1630 hours.

NURSERY SERVICE

During 11 o'clock Mass, young children of parents who attend this service will be cared for by nursery staff in the Chaplains' quarters.

BAPTISM

Usually on Sunday afternoon. If inconvenient, another day of the week may be chosen. Telephone the Chaplain's secretary during working hours to arrange the date and time for the papers and certificates to be filled in beforehand.

MARRIAGE

Contact the Chaplain or his secretary at least one month before the wedding if both parties are Catholics. In the case of a prospective mixed marriage, notice should be given at least two months in advance in order to give time for the couple to follow the instructions required by Church Law.

SENIOR CHOIR PRACTICE is held every Thursday at 7:30 p.m.

SENIOR CHOIR PRACTICE every Friday at 6:30 p.m.

SENIOR BOY CLASSES every Sunday at 6 p.m.

PROTESTANT CHAPEL NEWS

CHAPLAINS:

Rev. C. H. White, S/L — 837-3832 Rev. I. Raeburn-Gibson, F/L — 832-1525.

SERVICES — Sunday 19 April

9 a.m.—Holy Communion (Anglican Rite). 11 a.m.—Divine Worship and Holy Communion (Presbyterian rite).

NURSERY

Parents are reminded that infants and children up to three years of age will be cared for in the Chapel rooms during the 11 o'clock service.

JUNIOR TEENS

Grade 7 and over—9:45 a.m. in the Chapel. The Sacrament of Baptism will be celebrated at this service.

SENIOR TEENS

High School age and over—7:00 p.m. in the Chapel. The Senior Teens meet in the Chapel for devotions at 7 o'clock and at 7:20 in the Chapel rooms for the evening program.

SUNDAY SCHOOL

Ground floor—Building 62. Primary School (grades 1-3), 9:30 a.m. Kindergarten School (pre-school, 4 and 5 years old) 11 a.m. Junior School (grades 4 to 6) 1:30 p.m.

(Additional teachers and teacher's assistants are required for the three above Sunday School Departments.

For information call the Chapel (P) Local 417.

IS THIS YOUR PRAYER?

"O God, if you exist (and I am not sure you do) and if You can hear this prayer (and I do not know if You can), I want You to know that I am an honest seeker after truth. My mind is open; I am willing to believe. My will is surrendered. I am ready to obey. Teach me the truth. Show me if Jesus is Your Son and the Saviour of the world. And if You bring conviction to my mind, I promise that I will accept Him as my Saviour and follow Him as my Lord. Amen"

No man can pray such a prayer and be disappointed. God is no man's debtor. He honours all earnest search. He rewards all honest seekers. He has pledged His word to us: "Seek, and you shall find."

SENIOR TEENS

The Beatle dance held on April 11 was fairly successful with a total attendance of about 100. We feel that a special vote of thanks should go to Sheldon Heppner for his fabulous drawings of the Beatles. Also thanks to the chaperons, Mr. and Mrs. H. Heppner and Mr. and Mrs. D. McPherson.

On Sunday, April 12, Reverend Little from the Westwood Presbyterian Church attended the meeting and told us about a week-end church camp at Bower Lake near Boissevain, Manitoba. The Westwood young people are planning to go there on May 8 to May 10, and the Senior Teens have been invited. The cost will be approximately \$5 per person. If you are a member of the Senior Teens and are at all interested, please contact Padre Raeburn-Gibson for details.

Last Sunday, the scheduled film on radiation was not available. In its place two films, "Farnborough 1959" and "Our Northern Citizen" were shown. Next week, the film on radiation will be shown. We would like every member to bring a friend out to next week's meeting if possible. The age group ranges from fourteen up.

The Kirkfield Park Community Club is sponsoring a dance on April 25. Admittance is by ticket only. To obtain a ticket, please contact either Sandy Colquhoun at VE 7-1052, or Holly Robinson at VE 2-6149, or any member of the Westwood Presbyterian Youth Group. Everyone is welcome.

HERITAGE

Rare film clips dating back to the early 1900's will be used to help tell the story of William Booth, founder of the Salvation Army on CBC-TV's Heritage, Sunday, April 19, at 4:00 p.m. EST.

Entitled Onward Christian Soldier, the half-hour documentary will trace General Booth's activities—the early street meetings in London; the first permanent quarters of the mission; the early uniform and music groups; and the Booth family.

Narration will be provided by Commissioner W. Wycliffe Booth, the territorial commander of the Salvation Army in Canada and Bermuda, and General Booth's grandson. Lloyd MacInnis, writer of the script, will also interview Commissioner Booth.

The background music for the program will be performed by the Halifax Citadel Band of the Salvation Army.

Distaff Side

RECIPE OF THE WEEK

MACARONI DISH

8 oz. macaroni, 1/2 pkg. wide noodles. Cook and drain, rinse with cold water.

1/4 cup celery, chopped, 1/4 cup onion, chopped, 1 can mushrooms, drained, brown together.

Mix macaroni and browned mixture together in a large bowl, then add

- 1 can cream of mushroom soup
1 can chicken noodle soup
1/2 cup water
salt and pepper to taste
1 can shrimp, chicken, tuna or salmon (whichever budget will allow)
1 can chow mein noodles (save half for top)
1 can peas (drained)
a few cashews (optional)

This makes enough for about 10 people. May be made in two casseroles, and then one could be frozen for future use.

Entire mixture is heated in oven for about half an hour at 350 degrees. Lovely served with salad and garlic bread or buns. Very tasty

Mrs. Alberta Hodgson, chairman of the Multiple Sclerosis society, has asked us to appeal to our readers for a small boys bicycle, which she would like to buy for the young son of a multiple sclerosis victim. If you have such a bicycle for sale, will you please contact Mrs. Hodgson at 295 Ness Ave., phone VE 2-0731. Your help will be greatly appreciated.

\* \* \*

Now that the snow is gone, we find ourselves again looking at what may well be the untidiest married quarters in all of Canada. I am speaking, of course, of the Rental Units at Station Winnipeg. The streets have become a regular obstacle course with their assortment of broken toys, glass and sticks on all sides. What this place needs is an intense spring clean-up drive with a chairman in charge who really cares about the outcome, and has the ability to instill a little pride in the tenants. How about a little co-operation from the parents, who could teach their offspring to pick up their tin cans and broken toys from our thoroughfares. Mere cleanliness would do much to enhance our surroundings, and cleanliness costs nothing but effort.

\* \* \*

Clever remark of the week: by Mayor Stephen Juba during a TV interview: Statistics should be used like a drunk uses a lamp post; for support rather than illumination!

## THE 19th HOLE

BY ACE McDONALD

We have again reached that time of the year when the man of the house will be looking longingly out of the window, trying to visualize the state of his favorite golf course, digging out his golfing paraphernalia, practicing putting shots on the living-room rug and getting the EAGLE eye from his spouse; and in general preparing her for that time of the year when she will be left alone to battle the world as he will be transposed into another sphere of clubs, tees, courses and scores.

This situation has been going on since 1457 when Scottish housewives were having the same trouble with golfing husbands that many women experience today. But, girls, all is not lost, for you too can join them and enjoy the game yourself.

King James II of Scotland was forced to ban the game, as his men-at-arms were so busy defending their handicap that the business of defending the country was neglected. Less than a hundred years later, Mary, Queen of Scots, was known to have cavorted around the Course with Darnley or Bothwell, much to the chagrin of her cousin, Elizabeth, who, not knowing the game, was under the impression that Mary was plotting some devious intrigue whereas the truth of the matter was that Mary was only pursuing the illusive little white ball. The Course that Mary took such an active interest in was St. Andrews of Scotland, and 375 years later the famed golfer Bobby Jones sunk a 120 foot putt on the fifth green.

Organized clubs were an inevitable sequel, and the Royal Blackheath Club was formed in 1608, only 20 years after Sir Francis Drake dropped his lawn bowling to defeat the Spanish Armada.

We note with pride that Golf made its debut on the North American Continent in Canada, by the formation of the Montreal Golf Club in 1873. The club's first course consisted of 11 holes on the lower slopes of Mount Royal, now known as Fletcher's Field, a park in the heart of the city.

Today, less than a century later, more than 250,000 Canadians, men, women and even children, are enthusiastic golfers.

As we begin another golfing season, it is not enough to play the game according to the rules. There are unwritten laws in golf, which when followed make the game

more enjoyable for yourself, for your opponents and fellow golfers.

Here are several rules of etiquette which should be considered:

1. No one should move, talk or stand close to or directly behind the ball or the hole when a player is addressing the ball or making a stroke.
2. The player who has the honour, should be allowed to play before his opponent or fellow-competitor tees his ball or makes a stroke.
3. No player should play until the players in front are out of range.
4. In the interest of all, players should play without delay.
5. Players searching for a ball, should allow other players coming up to pass them; they should signal to the players following them to pass, and should not continue their play until those players have passed and are out of range.
6. Before leaving a bunker, a player should carefully fill up all holes made by him therein.
7. Through the green, a player should ensure that any turf cut or displaced by him is replaced at once and pressed down, and that, after the players have holed out, any damage to the putting green made by the ball or the player is carefully repaired.
8. Players should ensure that, when dropping bags or the flagstick, no damage is done to the putting green, and that neither they nor their caddies damage the hole by standing close to the hole or in handling the flagstick. The flagstick should be properly replaced in the hole before the players leave the putting green.
9. When the play of a hole has been completed, players should immediately leave the putting green—and mark their scores after.

10. After holing out on any putting surface, practice on same is forbidden.
11. Players should not swing at ball or slam ball down when putt is missed.
12. Players must follow the arrows with their caddy carts around all greens. They should never run their carts on the fringe of any green.
13. Caddy carts shall not be brought upon any tee.

### PRIORITY ON THE COURSE

A threesome or foursome should have precedence of and be entitled to pass any other kind of match.

Any match playing a whole round is entitled to pass a match playing a shorter round.

If a match fails to keep its place on the course and loses more than one clear hole on the players in front, it should allow the match following to pass.

Junior members or student members must at any time allow the senior members to pass.

\* \* \*

A general meeting of personnel interested in golf was held at 1315 hrs 8 April with approximately 30 personnel present.

The following personnel were elected:

- President ..... F/L Carr-Hilton
- Vice-President.. WO1 J. W. Morgan
- Secretary ..... LAC W. Vinton
- Tournament Co-ordinator ..... Sgt. P. Ellis
- Assistant Co-ordinator ..... LAC King
- Entertainment .... F/L McCormick
- Assistant Entertainment ..... LAC Black
- Publicity ..... Sgt. G. McDonald

It was decided that the price of membership for personnel would be \$2.00 per member, which would also be extended to include dependents at the membership price of \$2.00.

The Works Committee are investigating the proposal of constructing a Station Golf Driving Range.

It was recommended by the Tournament Co-ordinator that Match Play be reorganized again this year, and that strict adherence to the rules be in effect throughout the match.

To finalize my first column, remember as the great American golfing star, Ben Hogan, had to say after winning the British Open Golf Championship: "Golf is a game of mistakes. You don't hit more than one or two shots perfectly in a whole round, and there are many other factors you cannot control".

## SHARKS SWIM CLUB NEWS

Elmwood - Kildonan Family YMCA sponsored a swimming meet Saturday, 11 April, in which 14 members of the Sharks Swim Club participated. Six clubs entered in this well organized swimming meet, which was sanctioned by the Canadian Amateur Swimming Association (Manitoba Branch), and the Sharks Swim Club with its limited entries did very well.

Bob McLarnon, Donald Desjarders, Linda Waroway and Michael McClean entered individual events. Two of the three Sharks relay teams placed first in their events. The winning relay teams were made up of:

**BOYS 10 YEARS AND UNDER**  
200 Yards Medley Relay—Bob McLarnon, John Stangroom, Robert Roberston, Pentti Karkkainen.

**BOYS 15 AND 16 YEARS**  
200 Yards Free Style Relay—Kevin Scott, Bruce Jeffries, Gary Hope, and Michael McClean.

The Sharks Swim Club's next meet will be at Lipsett Hall, April. This meet will be the first warm-up before the big meet of the year, "THE MANITOBA OPEN CHAMPIONSHIPS" to be held May 8, 9 and 10, at Lipsett Hall. Taking part in this meet will be swim clubs from the U.S.A. and parts of Canada. All Sharks Swim Club members must now get down to serious training in order to be ready for this very important event.

The Sharks Swim Club welcomes all aspiring swimmers interested in competitive swimming. Practice times are:

Boys— 8 to 12 years, Girls 8 to 12 years—Tuesday—1700 to 1800 hrs.  
Boys—12 to 17 years—Tuesday—1800 to 1900 hrs.

All members—Saturday, 1800 to 1900 hrs.

Anyone wishing to help in coaching or assisting with the organization and administration of the Sharks Swim Club is asked to contact the Rec Centre—511, or John Stangroom—626.

MINOR HOCKEY

By Cpl. M. D. SMITH

Sports Director, Community Council

Last Saturday saw the official end-up of the hockey season when 200 young players were entertained by a program of cartoons at the Drama Club. Following the show they retired to the Old Drill Hall for refreshments and the presentation of trophies and crests.

The boys consumed over 400 hot dogs, 30 gallons of Pepsi, about 200 cups of ice cream and an uncounted quantity of cakes, cookies and ... the latter being donated by ...

Trophies and crests were presented to the Rockets, the Atom League Champions coached by Mrs. Whitehead and the Voodoos, Pee Wee Champions coached by Mr. Motherwell. The remaining twelve teams were then presented with their crests. These crests were obtained from the proceeds of hot chocolate, coffee and cookie sales during the regular season. We wish to acknowledge the donation received from Station Fund towards the cost of refreshments. Our thanks go to the people who gave freely of their time to prepare for, cook, serve and clean up after a hectic, but very successful day.

Preparations are being made for the baseball season. Please watch Voxair for further announcements.

TRACK and FIELD

THE TOKYO OLYMPIC STANDARDS

Olympic regulations permit each country to enter one athlete (without strings attached) for each event on the Track and Field programme. However, there is a stiff set of standards to pass, before a country is permitted a second or third entry. Just how strong they are, for the Tokyo Games, is startling.

Just meeting the ladies' standards would have comfortably won all gold medals in the 1948 Olympiad at London. "Comfortably," means 27 feet short in the case of the discus and 18 feet in the Javelin.

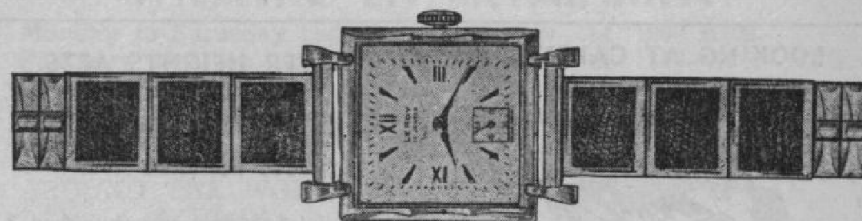

On the men's side of the scale, meeting the standards (1964) would have won 11 first-place medals and produced a tie in one other case. That's a batting average of .667 for the 18 events listed.

The 1964 standards and 1948 results follow:

MEN		
Event	Standard	1948 Games
100 Metres	10.4	10.3
100 Yards	9.5	---
200 Metres	21.1	21.1

### COMBINES — BROOMBALL CHAMPS

Back Row (left to right): Wally Armstrong (Captain), Don Oliver, Don MacDonald, Chico Maki, and Jim McLeish. Front Row (left to right): Carl Wills, Gerry Gerow (Assistant Captin), Boyd Russell, Ron Lindahl and Don Husband.

Pictured above are this year's inter-section broomball champs, The Combines. They finished in first place after regular season play with a 13 win 2 loss no tie record and knocked out the Cpls' Club entry in the semi-finals by scores of 1-0 and 2-1. They suffered one loss in the second game of this series by a score of 2-1 in favor of the Cpls' Club.

As the scores would indicate, this was a hard-fought and close series and both teams are certainly deserving of recognition for their efforts. The finals, were played in the recreation centre because of unavailability of an ice surface anywhere in the city. TCHQ eliminated Workshops in

their semi-final round in two straight games and went on to meet the Combines in the finals. Combines emerged victorious once more by counts of 4-2 and 2-1 to capture top honours as they did previously in the 1961-62 season. McLeish, Oliver, MacDonald, Lindahl and Armstrong split the scoring in this series for the winners, with Gerow and Russell contributing some valuable and talented net-minding.

Individual trophies will be presented to the winning team members at the annual broomball wind-up party to be held sometime in May. Details of this function will be made known at a later date.

### CLUB 61 CURLING CHAMPS

Club 61 curling champions left to right, making presentations, LAC C. McDonald V/PMC, LAC Heagy (Skip), J. Husband (Third) and J. Lewis (Lead).

### CLUB 61

By JIM LEWIS

Once again the club curling season has come to a close, during the bonspiel last week a number of new curlers were introduced to the game whom I'm sure will be back next time. Needless to say there were a corresponding number of stiff members around afterwards. Good competition was seen and I'm sure most members thoroughly enjoyed themselves. A big vote of thanks goes to the wives who supplied the food. A well varied side table was layed out on two occasions and quickly disappeared each time.

The winning team of Lac's G. Heagy (Skip), J. Husband (Third) and J. Lewis (Lead) was brought through the Spiel by an excellent skipper against the team of Lac's J. Baldwinson (Skip), D. Neudorf (Third) and J. Pearson (Lead) in a very interesting game. Presentations were made at the club on Saturday night by the Vice PMC and the new annual trophy given by "Imperial Jewelry Co" was also presented for the first time.

Tonight, Friday 17th, is "Talent Night" at the club. There will be

cash prizes for the winning competitors so bring along your "Act" and win yourself a dollar or two. Those of you who did not attend the last one should look in, it's a lot of fun. Tomorrow night, Saturday 18th, will be dancing to "The Emeralds" and the film for Sunday is "Donovans Reef" starring John Wayne. A general mess meeting will be held in the club at 16.00 hrs Thursday 23rd Apr. Well that's all for now, see you at the club.

### FRANCE WILL END TESTS IN SAHARA

ALGIERS—The effort to develop nuclear bombs for President de Gaulle's manned-bomber striking force is being shifted to new bases in the Pacific. The dismantling of test installations and burial of contaminated material were reported well under way at Reggane, a major Sahara test site. The closing of similar bases at Colomb Bechar, chief logistic support base for the tests, and In-Eker, a recent test site, is in the planning stage.

STAMPS

By MICHAEL J. KOSTER

Winnipeg's Fifth Annual Coin Show started yesterday at the Royal Alexandra hotel in the Ball Room on the mezzanine level. It is still on today and will continue tomorrow night with doors opening at 10 a.m. and closing at 11 p.m.

\* \* \*

It is a real fine and interesting display of coins, stamps, bills, tokens, medals etc. . . . Also you will find ancient relics and coins flown from Teheran for this show: Imperial Crowns of the East. A Chinese numismatist will bring you rare classical stamps on silk paper. Experienced buyers and sellers are ready to serve you. The severest prize draws daily will consist of 1964 Canada Mint sets.

Place again this big coin show is for three days only. Thursday, Friday and Saturday of April 16, 17 and 18. It is co-sponsored by our Numismatic Society (RCAF) and the St. James Coin Club. Don't forget the location is in the Colonial Ball Room of the Royal Alexandra Hotel. And so we'll see you there, fellow numismatists!

FLYING WING FLIGHT CHECKS

A BIRD'S EYE VIEW OF FLYING WING

Arrivals: Nine more pilots arrived on Posting from Rivers, Atkin, Belanger, Forestell, Bannion, Spurgeon, Livings and Uruski. Welcome to the club.

On course: F/Os Bob Horton, Jack Chapman, Jack Straiger and Les Paproski will be leaving for the Dak OTU starting on the 13 of April.

The 'n' pieces: A Well Done to Gil Champigny. Gil brought a message back to Winnipeg after losing his engine over Lake Manitoba on his Detail. Gal Marilyn took off on the 13th for 3 weeks of well deserved holidays. Marilyn is enjoying the "Evergreen Play-land" on Vancouver Island.

Matching 'n' matchings: Congratulations to F/O and Mrs. Doug on the arrival of their new son.

Departures: F/L Peter DeTracey, who just got out of the Despatch Squadron at Trenton. Pete is driving Yukons for ATC.

We have heard that a large number of "D" Flight pilots are being transferred out in the near future. Most of the transfers are to ATC. We'll have some

definite names and places next week.

**Additions:** In addition to F/O Stu Isenor's broadcast band radio, our Crew Room is now sporting a VHF transmitter and receiver. It should prove to be very useful night details. Thanks to the chaps from Telecom for the installation.

**Shut down:** A short column this week. We'll have lots of news on transfers next issue. Till then

Cheers  
The Goony Bird.

KADET KAPERS

By MICK

A good crowd appeared at the Spring Casual Dance on Friday evening and from all accounts it was a big success, as most of the dances held at the Mess these days seem to be. This switch from Saturday to Friday evenings was a "brain wave" on somebody's part! Because these dances are so successful, why not have more than the "one a month" we seem to be limited to these days? The informal dress for Friday's dance was well received by most members, and will undoubtedly be a very welcome idea for any dances during the summer months.

Last Wednesday's regular sports afternoon was waived in favour of a tour of the University of Manitoba. It made a welcome change, with the Electrical Engineering Department proving to be the most interesting of all, although the Home Economics Dept. would most probably have taken top honours had we been allowed inside!

Actually we could have used that afternoon to practice for the Sports Day on the 17th. Too late now, and of course, we don't need the practice anyway!! Following the sports events there will be a Monte Carlo evening in the Mess. This was a great success earlier in the year, so lets make it that way again. If the cards and wheels beat you last time, this is your chance to get your money back!

The Graduation Dance falls on the following week so now is the time to make arrangements with the latest girl friend, wife, baby sitter or what-have-you. Corsages are available through the Mess Manager.

See you at the Mess.

AUTOMATIC CRASH POSITION INDICATOR

In a strong bid to improve flight safety and reduce costly air searches, the Department of Northern Affairs and National Resources has announced that all aircraft chartered by the Northern Administration Branch, will in future be required to carry automatic crash position indicators. The indicators will be in addition to the other emergency and survival equipment carried by chartered aircraft.

The automatic crash position indicator might be described as an automatic distress radio beacon, used for locating aircraft that have crashed in unknown areas. It was designed by the National Research Council after many years of research work, to make air search and rescue work more effective.

With the automatic position indicator, air searches can be under-

taken day or night under most weather conditions. Although the beacon is normally released automatically, it can be deployed manually in special circumstances if required. When released, it begins to transmit a distress signal as it flies away, curving sharply to slow down for a gentle landing at a safe distance from the aircraft. The frequency of the signal, 243 MC, is the standard search and rescue frequency.

A continuous signal can be transmitted by the beacon for about four days. At a search height of about 9,000 feet the signal can be picked up over a radius of 20 to 40 miles. On the rather rare occasion that it is desired to shut off the beacon after deployment, an emergency shut off is possible. The system has been designed for permanent mounting on aircraft.

SERVICE BRIEFING

SUMMERSIDE AIR BASE SAFE

OTTAWA—This was confirmed by Solicitor-General J. Watson MacNaught in the wake of the release of Defence Minister Hellyer's long awaited "white paper." Mr. MacNaught announced that the \$1 million contract for runway and taxiway improvement at the Summerside base will take full effect in the spring. Reporters also learned that there are no plans whatsoever for acquiring anti-submarine nuclear weapons for use by aircraft in Maritime Air Command. Command officers are reported to have been agitating for nuclear depth charges, currently in use by United States forces and other NATO allies.

The Journal Pioneer—Summerside

ADMIRALTY SCUTTLED

LONDON — The streamlining of the defence setup, brought about because of the requirements of the nuclear and space age, also spells the end of many historic offices and institutions, including the Admiralty, the War Office and the Air Ministry. The crux of the reshuffling gives the Ministry of Defence a unified responsibility for the whole defence effort and puts the department under a single cabinet minister—in this case Peter Thorneycroft. With the new setup the government portfolios of First Lord of the Admiralty (navy minister), Secretary of State for War and Secretary of

State for Air are abolished. They are replaced by three ministers of state—or assistant ministers—responsible for each of the services. (Montreal Star).

MANNED FIGHTER-BOMBER FOR RCN

HALIFAX — The Skyhawk A4E jet fighter-bomber, one of the smallest aircraft of its type in the world, could fill an important gap in the RCN. Later this month, the aircraft carrier Bonaventure will arrive in Norfolk, Virginia, where "tests and evaluation" will be carried out on the midget jet. Ever since the retirement of the Banshee and the disbanding of 870 Squadron at Shearwater, the Navy has been without any effective air protection of the fleet. At the time of the retirement of the Banshees, it was understood that the air protection of the fleet would be undertaken by missile-carrying general purpose frigates—but this plan was scrapped when Defence Minister Hellyer announced that the G.P. frigate building program would not be continued. Now it looks as though the defence department are looking back to the manned aircraft to defend the fleet against air attack.

(Halifax Herald).

A bargain hunter is often led astray by false profits.

## RCAF SEEKS "SISKIN" AIRCRAFT

OTTAWA,—To complete an exhibit of fighter type aircraft used by the RCAF through the 1920's to the present day, the Air Force is attempting to locate one of the Siskin biplanes that were introduced into service in May, 1929.

A total of 10 Siskins were purchased by the Air Force and all but one have been accounted for. Aircraft number "A-26" was sold by War Assets in September, 1946; however, there is no record of who purchased the aircraft.

The planned exhibit is being arranged in connection with National Air Force Day, which is scheduled to take place at RCAF Station Rockcliffe, near Ottawa, on June 6.

Other aircraft in the display will include a Hurricane, Spitfire,

Vampire, Sabre, CF-100, CF-101B and a Bomarc.

To complete the display, anyone knowing the whereabouts of the Siskin that was sold in 1946, or of Siskin spares, is requested to advise the Staff Officer for Public Relations Air Defence Command, RCAF Station St. Hubert, Que., or write to the Directorate of Public Relations at Air Force Headquarters in Ottawa.

## STATION LIBRARY

## LIBRARY NOTICE

Watch for Cubs' and Scouts' Annual Book Drive, to be held during first week of May.

We need more children's books for our Station Library.

During your spring cleaning, save those children's books for the Book Drive.

Watch for further notices in Voxair.

## RCAF VOLLEYBALL CHAMPIONSHIPS

As winners of zone 2, RCAF Winnipeg competed in the RCAF championships held at Stn Downview 8 and 9 Apr. The other zone winners competing were Station Cold Lake, Centralia and Sydney.

When play was finished Centralia emerged clear winners and Winnipeg (defending champions) were runners-up.

	Wins	Losses
Centralia .....	18	0
Winnipeg .....	10	8
Cold Lake .....	8	10
Sydney .....	0	18

Representing Stn Winnipeg were G/C Middleton, F/L Fox, F/L MacKinnon, Cpl Porter, Cpl Schilling and LAC DaSilva.
