DRIVE SAFELY! WALK SAFELY!

SAFE DRIVING WEEK

DECEMBER 1st - 7th

SAFE DRIVING WEEK

The stroke of midnight, November 30, signals the opening of Canada's 9th nation-wide campaign to reduce road carnage. Safe-Driving Week, 1964, will end at midnight, December 7.

The sponsors, the Canadian Highway Safety Council, will promote its belief that the average motorist is fully aware of the right way to drive, just as the pedestrian knows the safe way to walk in traffic. CHSC's problem, shared by all safety organizations in Canada, is to convince them they should put that knowledge to work. The Council's general chairman said, "If every motorist and pedestrian drove and walked as he knows he should, Canada's death toll in traffic would be drastically reduced."

The Council issued an urgent plea to all motorists and pedestrians to observe every safe tactic and ethic of the road during Safe-Driving Week 1964. "If they do it for a week, and our accidents, injuries and fatalities are reduced, they can do it for every other week of the year. We who work for road safety challenge motorists and pedestrians to prove it can be done."

WHAT'S THE USE?

During the past eight years, 450 people died in traffic during Safe-Driving Week. With no special-emphasis campaign, such as Safe-Driving Week, 640 people would have perished on the roads and streets. This suggests a saving of 190 human lives, or 24 for each Safe-Driving Week.

Over a year on this scale, the improvement could be 1,000 lives.

Such an improvement can be hoped for. It is unheard of, but it can be worked for and attained.

Accidents occur one at a time. They can be avoided once at a time.

PMC ACCIDENT FACTS

How do Station Winnipeg personnel rate? As much as we like to think we are above average drivers the number of accidents over the past few months proves otherwise. Thorough accident analysis reveals that 98% of all accidents are preventable. This figure certainly appears to be sound when one looks at the causes of accidents by personnel at this unit.

We should all be better than average drivers as most personnel have regular medical checkups, most are reasonably young (plus a few of us older types), most have been subjected to much more driver testing due to transfers and yet we still seem to make the same old mistakes. Here are just a few causes of accidents over the past month: Speed unsuitable for conditions, driving without headlights (after sunset), impaired driving, impaired driving (twice), inattention, and one accident termed backing into a parked car. (\$250 damage????)

It's about time we all reviewed our driving habits. With the holiday season coming up it is going to be even more difficult to achieve an accident-free record, but let's accept that challenge. KEEP ALERT AND WATCH FOR HOLIDAY HAZARDS.

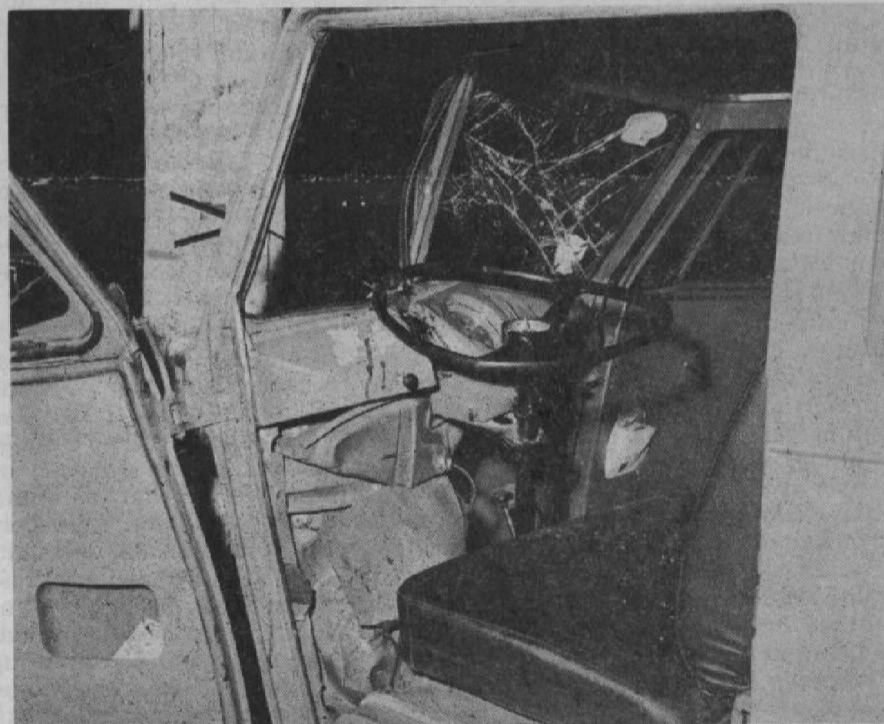

ALCOHOL AND DRUGS

Driving while efficiency is reduced by an earlier intake of alcohol or drugs is a criminal offence.

Current legislation may make it difficult to prove.

Two facts stand out:

1. There are habitual drinkers who drive. These distort the record of accidents attributed to alcohol.
2. No one can drive as well after imbibing alcohol. Good drivers are

The driver of this Pole, being impaired, did not see the curve in the road nor the vehicle which was standing still!

reduced to fair drivers, fair to poor, poor to bad, bad to dead!

Anyone who can afford to operate an automobile can afford alternate transportation to protect himself, his family and his car.

SEAT BELTS

Seat belts, properly worn, can and do save lives and reduce injuries. On short trips and long trips, car occupants should be safeguarded with properly fastened belts. Records are building to show

that in at least one fatal accident in four the use of a seat belt could have saved a life.

Fit belts snugly over the lower abdomen, wear them every time the car moves, and chances of death or severe injury will be drastically reduced.

No seat belt can do the least amount of good lying idle on the seat or floor of the car. In fact, a loose belt can be whipped around in a crash and injure the occupants.

Wear it, always.

Canadian Defence Policy

(Early in November the Minister of National Defence, the Honourable Paul Hellyer, presented Parliament with a resumé of defence policy implemented and planned at this time. This policy and its implications should be of interest to all service personnel.)

I. INTEGRATION OF DEFENCE HEADQUARTERS

As indicated in the Defence White Paper of March '64, the government decided that the best method of ensuring effective integration of Canada's Armed Forces would be to start at the top. This procedure has been followed at Defence Headquarters in Ottawa. Bill C-90, amending the National Defence Act, was passed by Parliament and came into effect on August 1, 1964. On that day the positions of Chairman Chiefs of Staff Committee and the Chiefs of the individual services were abolished and the new organizations established. The new organization consists of the Chief of the Defence Staff, A/C/M F. R. Miller; the Vice Chief of the Defence Staff, Lt./Gen. G. Walsh; the Assistant Chief of Defence Staff, A/V/M W. W. Bean; and four functional Chiefs—Operational Readiness, Lt./Gen. J. V. Allard; Personnel, V/Adm. K. Dyer; Logistics and Engineering, A/M C. L. Annis; and Comptroller General, Lt./Gen. R. W. Moncel.

Since the Bill was passed, reorganization has been developing stage by stage. The first stage considered is the complete integration of Canadian Forces Headquarters. This process has reached the higher level and will continue until all the positions required for the new integrated headquarters have been filled. The target figure for personnel savings at CFHQ is approximately one-third throughout all ranks and will be possible as a result of the formation of an integrated staff and the elimination of duplication. The new integrated headquarters should be largely organized on the reduced scale within a year. Some special problems pertaining to the Logistics and Engineering Branch exist, and progress in this area in making the planned reductions will not be as rapid as in other branches. Throughout the integration process, new methods are being developed and new policies being established while attempting to take the best from the several systems in operation previously and to apply them as a whole. In the case of logistics, for example, this means extending the automated system presently in use by the Air Force throughout the three services.

With the integration of the Canadian Forces Headquarters well under way, preliminary thought is being given to the integration of Commands as Stage 2 of the plan. It is anticipated that it will be possible to evolve a long-range plan which will permit considerable financial savings while at the same time maintaining or improving the efficiency of units. Stage 3 will eventually involve the integration of schools and other facilities.

Pen Points To Personality

We are again prepared to accept samples of handwriting for analysis and publication in this column. A sample should consist of at least four lines of natural writing on unlined paper. Sign the sample with a pen-name and enclose your own name and address on a separate sheet of paper. Pam requires to know whether the writer is male or female, and your age, if under 21 or over 60. Any unsuitable samples will be destroyed by the Editor. Address all samples to the

Editor, Voxair, R.C.A.F. Station Winnipeg, Westwin, Manitoba.

By Pam Pawtack

As we use to say when I was back in Rome with Caesar's 101st Legion of Horsemen in the 1st Army of the Royal Pictorian Squad ----

Brutus

"Brutus"

This writing comes from a person in the "male and under 21" group, and is rather typical of this group in many ways. He is having a hard time getting his emotions settled down as we see by the changing slope so that there will be changes of mood, and he is sometimes much more composed than at other times, but he is always responsive. Look at the tails on the "Y's"—he has a strong awareness of the opposite sex and sometimes has trouble handling these emotions, and he is still learning to accept responsibility. Some of his letters reach away up in large loops and others are comparatively low, and there are some strange curls at the start of two of his capitals. This shows that now and then he has some big ideas that are rather idealistic and probably "way out". He is self-assured and independent, enthusiastic about things which catch his interest and has plenty of drive, but there is still some self-consciousness too. The long terminals on the ends of the words show that he has a generous nature, yet some of them curl back on themselves showing that he is still rather self-centred and expects returns for what he gives. He has a very quick, keen mind, is perceptive and learns easily. He is sincere and frank, but he is learning to be diplomatic in his relations with others. "Brutus" may show some immaturity now, but he also shows signs of developing a strong and fine character.

"Theo"

What a wonderfully warm and responsive nature you have! Friendly, sympathetic, affectionate and receptive, and not afraid to show it and to give of yourself. You are always co-operative, perhaps sometimes too easily swayed by others. Although you show good general stability you have a tendency to get depressed or discouraged, although you are not likely to remain in such a frame of mind for long. You start a project so full of enthusiasm, but it often wears out quickly, and you will accomplish most by "striking while the iron is hot," although you should guard against impulsiveness and impatience. You are intelligent and very logical, and have a good imagination, which you put to good practical use. You can be both open and secretive, depending upon the occasion (certainly tactful); you are a good organizer and manage money well, and are generally practical and dependable.

"The Great Pretender"

Whilst you can be very affectionate and sympathetic you can also display a hot temper, however it will be short and sharp and you will soon forgive and forget. You are also extremely sensitive and very easily hurt, and although you will not hold a grudge against an individual you are always on the defensive. Your very spontaneous nature make you want to be friendly and generous, in fact you need people, and friendly you appear to be, and yet because of your fear of being hurt you always seem to hold back something of yourself for you are secretly suspicious of others' intentions. You have a quick comprehending mind, but it will sometimes be misled to impulsive and false conclusions by your powerful emotions and vivid imagination. Use your mind and the logic and concentration you are capable of to think things through, and your imagination along with your strong sense of colour and beauty to add to your good taste.

CWL COUNTRY STORE SALE

The Catholic Women's League are planning a Country Store Sale on the 2nd of December at 8:00 p.m. at the Drill Hall. This was chosen by the ladies to raise funds instead of the usual bake sale. They would appreciate donations from EVERY FAMILY in the parish. To mention, as a sample of articles required: canned shrimp, peas, soup, beans, fruit, etc., as well as packages of spaghetti, macaroni, box of sugar, cereal, tea bags, etc. Please be generous and exceed the one can of peas limit! A box to receive these articles will be conveniently placed at the Chapel entrance.

Reflections

There are people who pray only when confronted with a crisis. They use prayer as they would a spare tire in an emergency, and they try to force their own selfish will upon God. They pray aggressively rather than receptively.

Be not afraid to confess that you have been in the wrong. It is but owning what you need not be ashamed of—that you now have more sense than you had before, to see your error; more humility to acknowledge it; more grace to correct it.

There will be a general work meeting on Monday, Nov. 30, at 8:30 p.m. Members are requested to bring any articles of knitting or sewing.

REV. W. DAVIS

Canadian Bible Society Manitoba district secretary who will be the preacher at the Chapel (P) at 11 a.m. on Sunday.

True to the story, Santa's Brownies are doing their share. In a recent toy drive under the direction of Mrs. J. McArter, Winnipeg, Brownies loaded up with toys in the PMQ area in aid of those less fortunate.

BIBLE SOCIETY

One Sunday each year in every RCAF Chapel (P) the work of the Canadian Bible Society is brought to the notice of the people. The total offerings of the Services and Sunday School are contributed to the Society through its local district Secretary.

The CBS is an Auxiliary of the British and Foreign Bible Society. Since 1904 the CBS has distributed 1½ million Scriptures to the Canadian Armed Forces and 1.8 million Scriptures to new Canadian citizens and immigrants arriving in Canada. Through stores and colporteurs the annual distribution in Canada in over 70 languages is 400,000.

In 1964 the Society's objective for work outside Canada is \$600,000.00. This is the 60th Anniversary of the CBS and its objective is part of a campaign to raise \$4.5 million required for the world-wide needs of the Bible Societies.

"God's Word For a New Age" has as its goal: 1. A Bible in the language of the people for every Christian home. 2. At least a New Testament for every Christian in his own language. 3. At least a Portion of Scripture for all who can read and for every new literate. It is hoped that by 1966 the annual distribution will be 150 million throughout the world.

The Bible Society provides the Scriptures at a price people can afford. Since poverty is the lot of

the majority of the human race the Bible Society must provide Scriptures at a fraction of their cost and in some cases free of charge. Only as contributors increase can the Society increase its production and distribution.

Now is a good time to invest in the whole future of the world by helping your Bible Society to grow to serve a growing world. Contributions may be made at next Sunday's Services, or to the Chaplains. Official receipts will be issued if requested.

REGULAR LEAGUE

Taking a look at the win-loss record and the scores for and against in the Regular league, one wonders if the initial seeding of the rinks was the answer. It would appear as if some groups were generally much stronger than the others.

To date there have been 22 games with lopsided scores. The scores in these games have ranged anywhere from 8-2 to 15-0. Breaking these 22 games into the different groups, A group has had 2, B-2, C-1, D-4, E-3 and F-10. Taking a closer look at this figure and assuming that there have been no postponed games, it works out to 22 games out of a total of 60 games or 37%, which to my mind is a very high figure.

It might be said that occasionally a team has an off night, but not 22 teams. I have heard it said in the Club, "Wait until the third round comes up and then it will be tough to win a game because all teams will be about equal in ability." Maybe so!

I suppose it is inevitable that this situation will arise every year. We have new teams entering each year and they are an unknown quantity. So also are the teams that have lost players through transfers, retirements, etc., and who have had to obtain replacements.

Looking upon the brighter side of the league, there were a number of excellent games curled this past week. In the A group Ron Powell's rink had a tough time against Chuck Keating's team. During the first eight ends you could have picked either team as being the potential winner. It was not until the ninth end that Ron Powell was able to capitalize when Keating's rink missed crucial shots. Never make a mistake against Powell, if you do you are in trouble and Keating found this out to his sorrow. Ron picked up three in the ninth and that finished the game for Keating.

In the B group Brem Murray fought Curly Lord to a tie while Hanson and Spruston, in a low scoring game, tied 4-4. Latour

shaded Dowds 8-7. In the C group Baldwinson beat Clements 6-5. Clements is having his troubles this year, losing some close ones. There were two ties in the D group. Montieith was in both games, first tying Diepold and then McKillop. Bill Colson had a close one with McPherson winning 8-7. In the E group Davis and Klassen tied. Davis had won his previous game against Miller 10-8. In the F group Savage and Benson tied 6-6 and Johnson defeated Hampton 10-7.

At an Executive meeting held in the Curling Club last Monday at 1300 hours, the point system used for the Regular league was declared inadequate. A number of complaints have been received by the Executive to the effect that using the present point system it was possible, after completion of the second round, for a team or teams in the lower groups to jump to a much higher group and consequently be competing against teams above their level of capability. Conversely, teams in the higher groups could drop to a much lower group and thereby not be able to compete against teams of their standard.

To overcome this situation the Executive agreed to a new point system, and in addition, agreed to count the points obtained in the first round to be used for the placing of teams in the third and subsequent rounds. It should be noted that the points obtained in the first round will not be used in compiling the Grand Aggregate. The new point system is as follows:

- A and B. Groups:
 - 8 pts. — win
 - 5½ pts. — tie
 - 3 pts. — loss
 - 0 pts. — default
- C and D Groups:
 - 7 pts. — win
 - 4½ pts. — tie
 - 2 pts. — loss
 - 0 pts. — default
- E and F Groups:
 - 6 pts. — win
 - 3½ pts. — tie
 - 1 pt. — loss
 - 0 pts. — default

A Group winners of the Club 61 Bonspiel— Left to right, Ace Crowell skip, Bud Rankin third, Dave Cole second and Claude Dube lead.

CLUB 61 BONSPIEL

The Club 61 Bonspiel got off to a roaring start last Friday morning, 24 rinks taking to the ice. An interesting sidelight to this 'spiel was the number of novices that came out to curl and have fun. Of the 96 curlers 30 were beginners. Needless to say there were laughs aplenty. We saw take-outs that were phenomenal. What with missed brooms, wrong weight, opposite turns and anything else that can be done wrong on a sheet of ice—the outcome was surprising.

The first round started as all Bonspiels do—with a bit of confusion, but everything straightened out and the 'spiel ran very smoothly under the watchful eyes of a very competent committee. A number of exciting games were seen and experience at the anchor end proved to be the turning point in a number of games.

This held true in each event as the teams were whittled down to semi-finalists. In the A event John Baldwinson ran up against the powerful rink of Ace Crowell. This game was curling at its finest, with Crowell coming out on top by a single rock at the end of eight ends. Ace Crowell had Bud Rankin as third Dave Cole second and Claude Dube lead. The runner-up team of John Baldwinson had Gail Hodgson third, Tremblay second and MacDowell lead.

The B event was not as spectacular as the A event. Keith Johnson scored heavily against Bob Taylor who conceded defeat after seven ends. Keith Johnson had Barb Weshenko, Neudorf and Sutherland with him.

C event showed some good curling as Doug Galusha pulled a squeaker away from Latour, who gave it the old college try but just could not dent Doug's armour. Curling third for Doug was Clive Dasilua, second was Don Martin, and Thivierge was at the front.

Saw a couple of funnies during the 'spiel. One little fellow wearing a touque and carrying a broom that was older than Moses took a tumble and rolled head over heels down the ice. This in itself wasn't too bad but it created a disturbance on the adjoining sheet when two lady curlers laughed so hard they bumped into each other and fell to the ice in a prone position with their bodies held above the ice by their arms. They had to do this as a rock was being delivered

down the ice and it passed beneath their bodies at which time they lay down on the ice still in a fit of laughter.

MIXED LEAGUE

It was very quiet in the Curling Club last Sunday. I imagine just about everyone was watching football. What happened to Calgary and what happened to their fans? I never heard a single comment made in the Curling Club Sunday evening about the game. Of course those unhappy Calgary fans will be able to sit back and watch Hamilton win the Grey Cup which should be some consolation to them.

Even though I did not hear any comments about the football game I did hear comments passed about the use of spares in the Mixed league. A number of curlers have approached me and asked about the ruling governing the use of spares. I include the rules in this column. I have discussed this matter with Maj Bob Bryant the Chairman of the Mixed league and he has stated that the following rules shall apply:

- Teams shall be composed of:
 - (a) Two male and two female members as registered for that team.
 - (b) Two male and one female member as registered for that team. A spare may be used to make up the team. In this case the spare must be a female and she shall be permitted to play lead, second or third but not skip.
 - (c) One male and two female members as registered for that team. A spare may be used to make up the team. If the spare used is male he shall play either lead or second. If the spare used is female she shall be permitted to play lead, second or third but not skip.
 - (d) Two members as registered for that team. In this case two spares may be used but the final composition of the team shall not have more than two male members. If one male spare is used he shall play lead or second. If two male spares are used one male shall be permitted to skip but shall not throw skip rocks. Nor shall the two males be permitted to throw stones in succession, i.e., one lead and the other second or one second and the other third.

If one or two female spares are used they shall be permitted to play lead, second or third but not skip.

It is very difficult to lay down rules for the Mixed league which will cover all situations. Nor do I think that it is necessary. Sunday curling, to my mind, is a day for enjoyment and recreation with our wives. Let us not spoil this day of curling by having teams with only one aim in mind; that is to win at all costs. It certainly doesn't hurt any one to lose once in a while. I have seen teams at the Club that have yet to win a game this year and these teams are having more fun than a lot of the rest. Of course they would like to win games and I am sure they will but until they do they will continue to enjoy the sport of the game and the warm friendship that exists within our Club.

LADIES CURLING

Not too much to report, but here are a few highlights of the past week.

Had a real record broken last week when one of the skips broke a three year holding of being the last off the ice. She was the first team this time . . . keep up the good work Doris.

Two very good games were played by the Savage and Kranz, Pelmer and Hicks rinks. The first went into an extra end 7 all on the 10th end, with Joan Kranz winning, and the second rink played end for end with a score of 11 all coming home. Rita Pelletier won that one.

Was doing a check on the score board and found a booboo. Missing in the Non losers list was Joan Wright's rink. This is Joan's first year at skipping. Keep up the good work, and no more tears.

Please don't forget to call me on your curling Highlights. Did you put your names on the list to attend Gimli, Dec. 5th?

KP's RAMBLING

By the time you read this column the date will be 27 Nov or later. This leaves three days or less to pay your curling dues. As John Cotter says—NO PAY—NO PLAY.

Some of our curlers are using the reserved parking places again. The reserved parking are for the President, Ice Maker, and Canteen Steward only.

Complaints - Complaints - Complaints. During the past two weeks I have heard numerous complaints about the condition of the ice and the stones. Some curlers say the ice is bad—it is heavy—it is swifty—there are falls—there are runs. I have also heard that the ice is not too bad but the stones were not sharpened correctly and that they are not matched. I have heard more than one curler say that during a game, throwing the same two rocks, one will curl and the other will not. Are either of these complaints true? I don't know.

STATION SPORTS

VOLLEYBALL

The Station Volleyball Team is a member of the City Senior "B" Volleyball League, comprised of ten teams. The calibre of play has shown a marked improvement over previous years, due possibly to the increased interest and more people actively engaged in playing the game.

There are over twelve active members of the Station team turning out regularly, and provided temporary duty and transfers do not take their toll as in previous years, this team shows the greatest potential that the Station has had for a number of years.

With their eye on the Manitoba Volleyball Championships in March, and the RCAF Championships in April at Cold Lake, team members are working hard to achieve that winning combination: team play, spirit, and good sportsmanship.

The following is a list of the home games for Nov. and Dec.:

- Monday—30 November RCAF vs. Ft. Garry
- Tuesday—1 December RCAF vs. R.C.H.A.

Times for home games — 1930 hours at the Recreation Centre.

RCAF SHARK SWIM CLUB

The Shark Swim Club hosted the St. James "Y" swim team at the RCAF pool on Saturday, 21 November. This swim meet was a good indoctrination for members of the RCAF Shark Swim Club, as this was their first swimming competition.

The enthusiasm and good sportsmanship displayed by both clubs made the event a most successful one. The competition being informal, only the winners of each event were given times. The St. James club dominated most of the events, with a few of the Sharks' more experienced swimmers, Mike McClean, Bruce Jeffries, Pentti Karainen, Bob McLarnon and Susan Orr; doing well in their events.

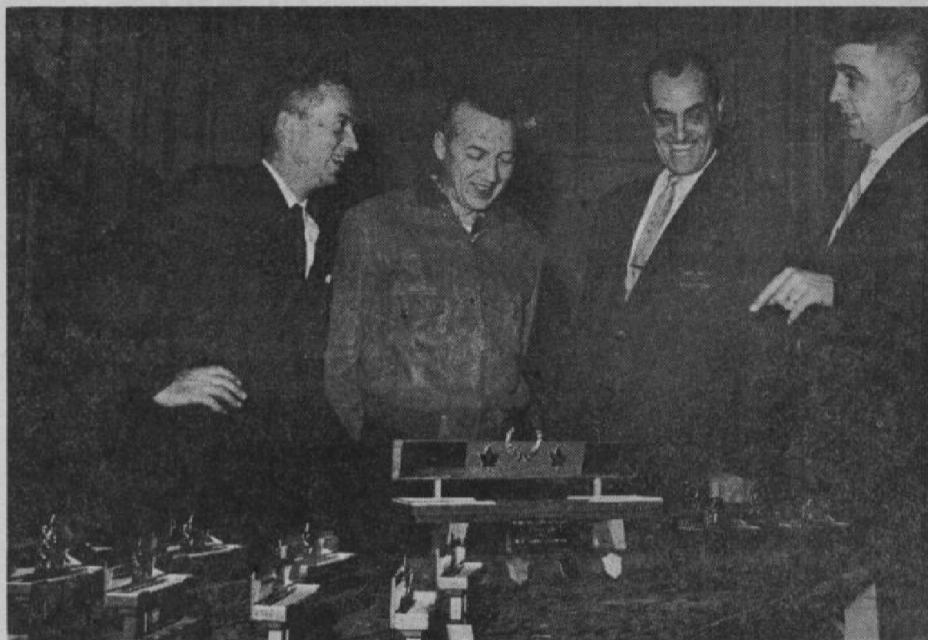

Saturday, 28 November, the Sharks have invited the East Kildonan Y.M.C.A. to a dual meet. The starting time is 1800 hours, and we hope to see a few parents out to support this event.

We would like to thank Cpl. Grace and members of the R and PE Staff for their help in running these events.

Man. Shuffleboard Doubles Championships

"Hands off, it's mine!" says Cpl. P. Malcolm, indicating the shuffleboard trophies. Mr. Don Ferguson, W/C L. S. Deyell, CADO, and Carling representative Mr. John Clarke may disagree.

The MSA Doubles Championship was held in the old drill hall on Nov. 20 and 21. Although the number of entries were not quite what was expected, 46 doubles teams left the wire at 6 p.m. Friday in pursuit of the Carlings Trophy and the right to represent Manitoba in the Dominion playoffs at Toronto on Nov. 27. The tournament was a straight elimination type with the losers in the first round going into the 32nds of the consolation round.

Five brand new shuffleboards, courtesy of National Shuffleboard Services Vancouver, and Monarch Shuffleboard Services, Winnipeg were installed in the old drill hall for the tournament. All the players found the boards true and lightning fast.

As play progressed into Saturday the tension mounted with it as teams fell by the way and the winners moved into tougher competition. The eventual winners of the Carlings trophy were two chaps from Norwood-St. Boniface Legion Jack Bishop and Art Van Steenkiste. Second place went to Morrison and Law of Selkirk Legion, 3rd to Forence and Hawes of Selkirk and 4th to Price and Binkus of the Corporals Club. In the consolation round a team all the way from Virden, Manitoba, won the honours and took home two of the prizes donated by Monarch Shuffleboard. Runners up were Tough and Meikle of West Kildonan.

All in all it was a very successful tournament and our thanks to the following for making it pos-

sible: G/C D. A. Willis a vote of thanks for the use of the facilities; Carlings Breweries and a special vote of thanks to John Clarke; the companies that supplied the shuffleboards and the gang from the Cpl's Club and various Veterans Clubs that assisted during the running of the tournament.

A Broken Hearted Loser

JUST ANOTHER FIRE

By J. P. KROEPLIN

What is your reaction when you read of, or hear about the latest fire in your area? Do you shrug it off with the thought, "Just Another Fire"?

The next fire might well effect you vitally in your own home circle or community. But have you made any serious effort to minimize the risk of fire in your home?

Until you and I and all of us—yes, all of us—make that so essential effort, those disastrous fires will continue to destroy, to kill, and to maim.

RCAF Station Winnipeg Fire Protection Flight are ready, willing, and indeed anxious to help in the battle against fire. We will inspect and advise on such steps and precautions as may be desirable. This friendly help is as near to you as your telephone, for only a brief call is needed.

Do your share to make our Station fire-safe this winter. If at any time in doubt call in the experts. Make this Winter a safe one for all those you hold dear.

DRAMA CLUB NEWS

By DAVE MILLS

Having just recovered from our opening production of the season, the Drama Club is now launching its second endeavour. For the first time in four years, the Club intends to enter the Regional Drama Festival to be held at the Manitoba Theatre Centre on 29, 30, 31 of March. Prior to this performance however, the Club will present public performances in our own theatre on 11, 12, and 13 of February. The play is Oliver Goldsmith's "She Stoops To Conquer". This is a post-Restoration Comedy (circa 1776) that requires some elaborate costuming and imaginative sets. It is, without doubt, the most important and most challenging production to be attempted by the Club in a period longer than we would like to remember.

We need help from people of greater or lesser experience in the dramatic art, especially those with experience in lighting, set construction and costume design. People willing to help in the design and construction of period costumes are most in demand. Anyone willing to contribute themselves and their sewing machine (elaborate one are not required) to the vast project of costume making will be welcomed with open arms. Our club rooms upstairs will be converted to a miniature garment factory, humming with machines and turning out apparel of every material and colour. Wigs and accessories will also be fashioned. Potential contributors please phone Mrs. Margaret Sheridan at TU 8-7661 or the Drama Club at local 233 on week-nights.

Our greatest need, of course, is for an audience. It is strongly recommended, therefore, that all readers set aside one evening during the 11th, 12th and 13th of February to attend a production you will most certainly enjoy. "She Stoops to Conquer" promises to be the fastest-paced, most rollicking adventure since Tom Jones! Don't miss it!

It's hard to climb a ladder with your hands in your pockets.

* * *

A wastebasket is the world's greatest labor-saving device.

DND EMPLOYEES TO MEET

The National Defence Employees Association, RCAF Station Winnipeg Group, will conduct their annual election meeting in the combined mess at 5:00 p.m., on Tuesday December 1.

Nine officers of the ruling executive council will be elected to conduct association affairs during the coming year 1965.

This will mark the first occasion that a staff association has held an election and supper meeting on the Station. It is expected that a good number of the total membership of over 150 will be in attendance. The National Defence Employees Association has been active in the Station since 1951, and has steadily increased its membership to the present figure.

The Association was established for the purpose of uniting into one organization, all civilian employees of the Department of National Defence. Its aims are to advance their social and economic welfare, enhance their efficiency, improve their working conditions and to promote improved cooperation with management.

RED RIVER REELERS

The Red River Reelers, your Station Square Dance Club has two big dances planned for the next couple of weeks. On Sat. 28th of November in the Drill Hall (old site) we are combining with four other clubs from the City of St. James in a "Hi Neighbour Square Dance Jamboree". Admission is free, and the call for "square em up" will be at 8.30. The movements at this dance will be kept simple so everyone can join in on the fun. Here is the chance for all square dancers from the station to come out and renew old acquaintances.

On Tuesday, December 8th we will be holding our Annual Christmas Party Square Dance in Bldg. 24 at 8.30 p.m. Admission is \$1.00 a couple plus 75c per person for the dinner payable in advance so that the Food Committee will know how many dinners to order. All the ladies are asked to bring a gift, not more than 50c, for a gentleman, and the gentlemen for the ladies. So lets all start the festive season off the square dance way—remember "Square Dancing is Friendliness set to Music."

It has just been learned that there will be no dancing on Tuesday Dec. 1st, instead everyone is invited to come out on Monday Nov. 30th.

"A BIRD'S EYE VIEW OF FLYING WING"

Arrivals: The latest group to arrive has been split up slightly due to "duff" weather and so have been arriving in small groups. Still to arrive as of last Friday were F/Os Brennan, Edwards and Freeman. F/Os Konings, Gordon, Ludlow, Benenfant, Buss, Dillon, and Lockerby are with us now and will be staying in "D" Flight waiting for transfers. Welcome to Winnipeg and ANS Chaps.

There are another five PIRQ grads due into Winnipeg on the 11th of December. They are F/Os Williamson, Henwood, Mirau, Hauser and Horton.

Departures: No one has left during the last week but there were some transfers in "D" Flight. F/Os Dayman, Lavers, McDermott, Stata, Wrenn and Thompson (MKW) have been transferred to Maritime Command on the 7th of December, but we have not been told as to where they are going.

On course: F/Os Gordie Speirs, Jean Bernard and Dennis Meyers are on the Dak OTU at Trenton at the moment and are due back to Winnipeg on the 18th of December. Just in time to go on Christmas Holidays.

Our own Dakota Conversion Course got underway on schedule last Monday and so far is running according to the syllabus. There have been a few changes made in the course already and it will be undergoing changes for quite a while yet.

Bits 'n pieces: The Training Command Flight Safety Team have been seen around the station lately. I guess that's why Jasper has been so busy.

Shut down: Well that's it for this week. Till next time

Cheers
The Goony Bird

GREY CUP DAY 1964

Saturday, Nov. 28 is Grey Cup day, and for millions of Canadians it marks the climax of another exciting season of Canadian football.

Some 30,000 fans will be on hand at Toronto's C.N.E. Stadium for the game, and thousands more in the Queen City will participate in and witness the usual pre-game festivities.

For those who will not be in Toronto and for Torontonians ensconced in their living rooms, CTV and CBC-TV will provide a full lineup of Grey Cup programs that day.

Coverage begins at 9:30 a.m. EST with a 90-minute telecast of the Grey Cup parade through downtown Toronto. Along with many floats, clowns and marching bands, the parade will feature the nine Miss Grey Cup contestants. Thousands of spectators are expected to line the parade route, which starts at Queen's Park and ends at City Hall.

Television cameras and radio microphones will be the eyes and ears for absent fans. This year CBC-TV will not only provide coverage of the game for ABC's Wide World of Sports in the U.S. In addition, Canada's armed forces overseas and Canadians all over the world will receive cable and short wave coverage and actuality reports of the 1964 game.

Radio stations of the armed forces in Europe will be connected to the CBC radio networks at home via the Trans-Atlantic cable, and CBC shortwave transmitters will direct the broadcast to Canadian living in the far North and abroad. More than 8,000 miles of line and cable will connect listener places as distant as Dawson City in the Yukon and Baden Soellingen, Germany.

There will also be transmissions of actuality reports of the game to Africa, Latin America, the Caribbean, the U.S. and Australasia.

A gentleman farmer usually has more hay in the bank than in the barn..

FLIGHT SAFETY NOTES

TAKE DUE CARE.

1. Aircraft engines that are being run up provide chill factors that will freeze human flesh almost instantly. Avoid prop blast.

2. Gloves that have been removed have a habit of being blown away, sucked into the jet intake, or covered with snowdrifts. Secure gloves to clothing.

3. Nylon parkas are capable of producing sparks, so they should not be used while performing maintenance, and especially not during refueling and defueling operations. Issue non-static parkas to all maintenance personnel.

4. The possibility of fuel, oil, and hydraulic leaks producing fire hazards during cold weather is great, especially when combined with increased use of ground heaters. Be sure that adequate fire bottles are available for all maintenance operations.

5. Ice crystals floating in hydraulic fluid can cut seals with the same effectiveness as a razor blade. Check hydraulic fluid for contaminants.

6. Do not overlook the draining of fuel tank sumps. Instances have occurred in which ice in low-pressure fuel strainers has caused all engines to quit soon after starting. Preheat condensation drains before draining fuel.

7. Heat applied to windshield during ground operations, if not properly monitored, will shatter them. Follow the operating instructions.

8. Oleo struts must be kept clean. Ice mixed with dirt makes an excellent sandpaper. Wipe oleo struts with clean hydraulic fluid.

9. Winter brings wind and ice; an aircraft has much surface area. Take particular caution when towing aircraft because the additional force of wind and decreased braking ability can join to produce destruction.

10. Extreme caution should be exercised while sweeping snow from aircraft wings.

11. Hot air used for removing snow will cause it to melt, run off, and refreeze in inaccessible areas. Use brooms and de-icer fluid.

12. Warm storage is the most effective mean of deicing an aircraft; however, ice and snow can melt and accumulate inside control surfaces and other isolated location. Be sure that the aircraft is completely dry before moving it out of a hangar.

13. Engine starter failures increase at temperatures decrease. These failures usually occur at such embarrassing locations as Yellowknife or the Northern radar sites. Move the prop by hand in the direction of rotation to release the prop brake prior to starting.

14. The spraying of de-icer fluid directly into flap wells, elevators, and inaccessible areas has caused controls to freeze, electrical connectors to fail, and booster pumps to become inoperative. Spray de-icer fluid from a position forward of the aircraft.

15. Fog can be one of the most serious weather conditions affecting maintenance in the Arctic. Aircraft that are de-iced prior to taxiing often ice up again before reaching the takeoff position. Station the de-icing truck near the takeoff position and de-ice the aircraft again if necessary.

CLUB 61

By CHUCK McDONALD

Well the Fall Bonspiel is over and trophies are decorating lockers, TV sets and book cases. It was nice to see such fine curling and sportsmanship throughout the entire Bonspiel. This is reward two fold to your Sports Committee who worked hard to make it the success it was. Thanks to them, everything ran smoothly and quickly to be completed on time to attend the dance and presentations which followed. Congratulations to the winners as follows: "A" Group Ace Crowell, "B" Group Keith Johnson, and Doug Galusha in "C" Group. I'm sure all will join me in Congrats to Doug Nelligan and Gerry Gerrow for a very fine show. Also thanks to Barb Weshenko and the girls who helped to make sandwiches on Saturday afternoon. They had to be good to go so fast.

During the presentations on Saturday night, we had two honoured guests in the Club. F/L Al Campbell, our H/PMC made the presentations to the winners as well as one to Jim McPherson, the Curling Club ice maker. Jim had done such a marvelous job on the ice, especially after some of the novices

finished with it, that a Club Member, Dobie Dobrastanski came up with a cartoon. In the event you would like to see this, Jim is displaying it in the Curling Club now and he appears to be extremely proud of it. F/L Campbell was also presented with a drawing by Dobie depicting his determination to show some of the Club Members that he belonged in this Bonspiel. Thanks again to all concerned for the marvelous turnout in the 'spiel and the dance that followed.

Well tonight is our Dinner Dance. This is the highlite of our Fall Festivities and should prove to be a very popular event in the future. The possibility of any tickets remaining is extremely slim but, if you are to attend at the last minute, call me at Loc 370 or home VE 2-1833. We will attempt to help you. Tomorrow night is our normal Saturday Night Dance. In attendance we have the ever popular Strollers. The crowds have been good when these fellows entertain so plan on being there. Also, don't forget the movie on Sunday afternoon at 1440 hrs.

Next week is Club 61's fifth anniversary. This is expected to be an extra special evening. Because this is a special occasion there will be no civilians permitted entry. This is for members and their wives girlfriends or boyfriends only. Lets try to celebrate with a full house. Until next week, we will see you in the Club where friends meet, Club 61.

An old-timer is the person who remembers when a man did his own withholding from his pay envelope.
