CALCULATE YOUR MORTGAGE PAYMENT

Calculating your mortgage payment is a simple matter if you know the amount of mortgage that you want to carry. Here's how: Take a look at the chart below. First select the appropriate interest rate - the current rate. Next you will have to select an amortization period. The amortization period is the total time required to pay the mortgage off. This is not to be confused with the mortgage term. If you select a 5 year term on a 25 year amortization mortgage, then it will take five 5-year terms to pay off the mortgage. Most residential mortgages are amortized over 25 years. Now that you have selected a rate and an amortization period, you should have a multiplier (one of the 3 or 4 digit numbers on the chart). Multiply that number by the thousands of dollars of mortgage to get your monthly payment.

For example, if I want to calculate the monthly payment for a \$67,000 mortgage at 9.75% with a 25 year amortization, my multiplier will be 8.78. I now multiply 67 (the number of thousands of mortgage) times the 8.78 multiplier to get a monthly payment of \$588.26.

Don't forget to add your monthly projected costs for heat and taxes to get a true figure for your monthly outlay. Your Realtor can help you estimate these costs.

ANNUAL INTEREST RATE IN %	AMORTIZATION PERIOD - YEARS			
	10	15	20	25
8%	12.07	9.49	8.28	7.64
8.25%	12.20	9.63	8.44	7.80

Purchaser's helpful hints

So you want to buy a house? But you don't know where to start? This seems to be quite common amongst potential purchasers – particularly first time buyers. I really feel that it is important to have a systematic approach to looking for a home. It makes buying a home so much easier. I thought I would take the time to outline the steps for you, as I see them. Here's the list:

1. Locate the general area where you are interested in buying and familiarize yourself with it by driving around. You may also want to see if the area is affordable by looking at the real estate ads in the newspaper.
2. Find a local real estate agent who knows the area where you want to buy. Explain to the agent that your relationship will be on a trial basis and then use that agent exclusively – as long as you are working well together. Virtually all homes are listed MLS and can be shown by any agent. Loyalty to one agent will help to create a reciprocal loyalty to you. There are several ways in which a concerned agent can help to save you money.
3. Before you look, go over your house, area and price requirements with your agent.
4. Obtain copies of all area listings to read thoroughly. This will help you to weed out unsuitable properties and to save time and energy.
5. Go over your finances with your agent. He/she should be able to give you an idea of what you can afford, required downpayment, closing costs, lawyers fees, etc. Your agent should also have an idea of which financial institutions would be most responsive to your needs. If possible, go to the lender and get pre-approved for your mortgage.
6. When you do go to look at property, wear comfortable clothing and slip on shoes (you'll be taking your shoes on and off endlessly). Take copies of the listings for the properties which you are going to see. Write your comments in the margin – it can be difficult to remember 5 or 10 properties at the end of the day without doing this.
7. You may want to view properties a second time when you get to a short list of possibilities.
8. If the home that you are considering is older, or if there are concerns about soundness of construction, you may want to make your offer conditional on the approval of a property inspector. The fee for this service is usually a couple of hundred dollars – it may save you money in the long run.
9. By this time you should have a feel for the values of properties in the area. You should also have an idea of what you want and what you can afford. It's time to make an offer! The only thing you will need to make the offer is a deposit cheque. This is the last money that will be required from you until closing. The amount of the deposit can vary from area to area. In our area, the average deposit is between \$1,000 and \$5,000. If you or your spouse will be hard to reach during the offer process, then the offer can be presented in one name – both names can then be registered on title on closing.

Conseils pour vous acheteurs

L'achat de votre maison sera beaucoup plus facile et agréable si vous travaillez de concert avec VOTRE AGENT IMMOBILIER. Voici quelques suggestions qui pourraient être utiles:

1. Choisissez et gardez UN SEUL agent immobilier. Rien n'est plus motivant pour un professionnel que de chercher et trouver la maison de VOTRE choix sachant que vous lui faites entière confiance.
2. Choisissez cet agent soigneusement. Assurez-vous que la compagnie qu'il représente est membre de la Chambre d'Immeuble. Un agent à plein temps, possédant une solide formation et une bonne connaissance des lieux et des prix vous sera d'une aide précieuse. Il est tout à fait normal que votre agent se surpasse pour vous satisfaire.
3. Une fois que vous avez fait confiance à un AGENT, les points suivants aideront les démarches:
 - A. Tous les participants du système Inter Agences SIA ont accès aux inscriptions. Ce n'est pas nécessaire d'appeler chaque agence pour obtenir sa liste d'inscriptions. Votre agent détient ces renseignements.
 - B. Soyez franc avec votre agent; confiez-lui la somme que vous êtes prêt à investir et votre impression de chaque propriété que vous visitez. Soyez assuré que toutes ces informations seront confidentielles.
 - C. N'allez pas à des visites libre sans VOTRE AGENT. Il ne peut alors vous aider à obtenir ces propriétés. Les agents qui organisent des visites libres deviennent les agents vendeurs et votre AGENT qui a déjà passé des heures à vous aider n'en retirera aucune compensation. Demandez à votre agent de vous accompagner.
 - D. Si vous voyez dans un journal une annonce qui vous intéresse parlez-en à VOTRE AGENT. Laissez-le faire les démarches; VOTRE AGENT obtient d'un autre agent bien plus de renseignements qui vous seront par la suite utiles.
 - E. Si vous n'êtes pas satisfait de VOTRE AGENT, parlez-en au COURTIER qui pourra alors vous assigner un autre représentant comprenant mieux vos besoins. De légers malentendus peuvent à l'occasion surgir, mais pas au détriment de vos attentes.

Des milliers de dollars en remboursement d'impôt!

Vous rêvez de devenir propriétaire? Pourquoi ne pas réaliser ce rêve en encaissant des milliers de dollars en remboursement d'impôt. Oui, vous avez bien lu... Pour des conjoints qui travaillent, les remboursements d'impôt pourraient varier entre 14 000\$ et 21 000\$!!!

Le Régime d'accèsion à la propriété (RAP), introduit en 1992, permet à chaque contribuable qui n'est pas propriétaire ou qui ne l'a pas été depuis au moins 5 ans, de retirer 20 000\$ de leur régime enregistré d'épargne-retraite (REER) afin d'acquiescer une maison.

Vous n'avez pas un sou dans votre REER? Peu importe, grâce aux modifications apportées au budget fédéral du 22 février 1994, vous pourrez quand même profiter du Régime d'accèsion à la propriété (RAP) dans la mesure où vous gagnez (ou avez gagné dans les dernières années) un revenu vous donnant droit de contribuer à un REER.

L'histoire de Jean et Nicole

Jean et Nicole n'ont jamais contribué à un REER depuis 1991 et n'ont jamais été propriétaires d'une habitation. Ils travaillent tous les deux depuis plusieurs années et ne bénéficient d'aucun fonds de pension d'employeur. Leur revenu imposable est de 30 000\$ chacun. À l'aide de leur agent, ils découvrent la maison de leur rêve et signent une offre d'achat acceptée par le propriétaire.

Ils prendront possession de leur maison dans 120 jours. **Comme ils n'ont pas contribué à leur REER depuis 1991, ils peuvent rattraper leurs contributions de 1991, 1992, 1993 et effectuer celle de 1994 (ils pourraient même effectuer une contribution à l'avance pour les années futures en autant que cette contribution spéciale n'exécède pas 8 000\$).** En rattrapant les contributions des années 1991-1992-1993 et en y ajoutant la contribution de 1994, Jean et Nicole déterminent que leur montant maximal de contribution est de 21 500\$ chacun, dans leur REER. Cependant, sachant que le RAP fixe à 20 000\$ le retrait maximal par contribuable, ils décident de limiter à 20 000\$ chacun leurs contributions à leur REER. Ils s'assurent que leurs contributions demeurent à l'intérieur du REER pendant une période d'au moins 90 jours avant d'effectuer leur retrait respectif de 20 000\$. Jean et Nicole viennent ainsi de se garantir chacun une déduction fiscale de 20 000\$ dans leurs déclarations fiscales de 1994.

Pour Jean et Nicole, cela représente une économie d'impôt d'environ **7 300\$ chacun, soit un total de 14 600\$!** De plus, certains crédits d'impôt supplémentaires s'accroissent tels le crédit de TPS (398\$ de plus) et le crédit pour frais médicaux (208\$ de plus). S'ils ont deux enfants, la prestation fiscale pour enfants sera augmentée de 1 704\$ pour une période de 12 mois!

Preferred Customer Rate Discount

1/4% or 1/2% off a Canada Trust Residential Mortgage*

This certificate entitles the bearer to a preferred customer rate discount on a new Canada Trust residential mortgage offered under our exclusive "Relationship Pricing" program. To take advantage of this preferred offer, this certificate must accompany a Canada Trust mortgage application and be authorized by Alison Eadie.

Thinking like a customer

How to help sell your house

Over my time in the real estate business I have noticed certain factors which seem to be common to most successful sales. It still amazes me how even the most obvious and critical factors – such as ease of accessibility for showings, for example – are often not implemented. This can cause an otherwise saleable property not to sell. So I thought I would list for you the things that you should do to optimize the possibility of a sale.

1. Your home should be clean! I can't emphasize enough the importance of having a clean and tidy home. Purchasers will virtually always select a clean home over one that is dirty and messy. I suggest that rooms be repainted in light, neutral shades, that the carpets be steam cleaned, and that all excessive clutter and stored items be removed from the house. Hire a cleaner if you don't have time to keep the house clean – it could make thousands of dollars difference in the sale price of your home.
2. Make your home accessible for showings. I find that the absolute best way to make your home accessible to Realtors and their potential buyers is to put a "lockbox" (a combination lock secured to your door with the key to the house inside) on the door. That way, if you are out and can't be reached by phone, the home can be shown anyway. This means that you won't lose a sale to an inferior home that is more accessible. The next best solution is to have a key to your home available in the listing office – provided that the real estate office is only a few minutes away from your home. Also, make sure that you open all the drapes and leave all the lights on in the house for showings – this makes the house feel more bright, open and appealing.
3. Put a sign on the lawn. I have found that there are two or three things that help to sell a home better than anything else. And they may not be what you would expect. A real estate sign on the lawn is extremely important because most potential buyers drive an area before they buy.
4. Obtain the best MLS coverage. Find out what MLS Board or Boards (some areas are serviced by more than one MLS) covers your area and make sure that you maximize your MLS coverage.
5. Make your terms flexible. Right now, we are still in a buyer's market. For this reason, it is still valuable to be as flexible as possible with terms. For example, if you have a broad time-frame of closing dates that you would accept, then your home becomes more saleable. Let's say that I list my house and I tell the Realtor that I must have a closing date of April 2 – this will considerably limit the number of potential purchasers for my home.
6. List with an active local Realtor. Chances are that an out of area Realtor will not be able to service your listing as well as a local one. A local Realtor will also know the local market better. An active local Realtor, and the key word here is ACTIVE, will also be able to network with both the people in the area (potential customers) as well as other agents coming into the area searching for a particular property.
7. Price it right! It is a key to the success of your sale to get the right price on the property – preferably right off the bat. There are arguments like: "I can always reduce it, but it's harder to raise the price." But I have always found that pricing a home right at the beginning is the best way to go. It often results in the best price for the property as well.

17 Wing Winnipeg

ED DALE
B.S.C. PHARM., RRS
ROSTER APPROVED

VAL MCEWAN
