HELP FIND A MISSING CHILD

As a serviceman/woman, government employee or just someone who cares, we keep our eyes open in our neighbourhoods. Somewhere out there is a missing child and there is someone who hurts very deeply who is looking for that child. It is for this reason that the "Military Relocation Network" has dedicated this space in our "Inter Base Real Estate" newspaper.

Thanks for caring,

How To Calculate Mortgage Payments

Multiply principal amount of mortgage (in thousands) by monthly payment factor in appropriate amortization period opposite current interest rate.

Example: For a principal amount of \$60,000 amortized over 25 years at an interest rate of 11.0%, the mortgage payment, per month, would be calculated as follows: $60.0 \times 9.63 = \$577.80$ per month.

PAYMENT AMORTIZATION TABLE (PER THOUSAND)

MONTHLY PAYMENT FACTORS

THE COST OF LIVING

...How Much Can You Afford Each Month?

Without question the most important consideration when thinking about making a change in where you live is considering how much it will cost and how much you can realistically afford.

You can start by drawing up a budget specific to your needs and assets. No two families live the same way and no two people budget the same way either. Two families with identical incomes will not necessarily spend the same amount of money or choose the same accommodations. Priorities as well as individual needs differ and you need to examine how much more you would be willing to and able to pay for something new.

It's important that you are honest with yourself. If you want something better, it may put a strain on your budget and you may have to change your lifestyle to adapt.

An average family should not spend more than 25% to 30% of its gross income on housing.

For a home that carries a mortgage, this figure should include payments of principal, interest and property taxes. For rental housing this figure should fully cover your rent. And there are other expenses, important expenses such as water, heating, electricity and insurance costs. Utilities and insurance usually cost 5% to 10% of gross income.

The following form will help you to calculate the maximum amount you should be spending on accommodations each month. Once you have calculated how much you can afford to pay each month, you can start looking for the home that both suits your needs and will also be affordable.

WHAT IS YOUR CURRENT INCOME?

Gross monthly income _____ \$ _____
 Gross monthly income (spouse) _____ \$ _____
 Other income _____ \$ _____

Total Monthly Expenses \$ _____
 Total Gross Monthly Income \$ _____
 Percentage of Income Now Paid for Housing = \$ _____ %

WHAT PERCENTAGE OF YOUR GROSS MONTHLY INCOME ARE YOU SPENDING ON HOUSING?

15% to 20% 26% to 30% 31% to 39% 40% or more
 Excellent to Good Acceptable Average Too Much

HOW MUCH ARE YOU WILLING TO PAY IN THE FUTURE?

Estimated Total Monthly Expenses \$ _____
 Gross Monthly Income \$ _____
 Percentage of Income Willing to Pay = \$ _____ %

WHAT PERCENTAGE OF YOUR GROSS MONTHLY INCOME ARE YOU SPENDING ON HOUSING?

15% to 20% 26% to 30% 31% to 39% 40% or more

Ben Holden Says . . .

A Home Should Be...

A home is a roof to keep out the rain, four walls to keep out the wind and floors to keep out the cold.

But it should be lots more than that.

It should be the laugh of a baby, the warmth of loving hearts, the light from happy eyes, kindness, loyalty and don't forget comradeship.

Home should be the first school and the first church for young ones, where they learn what is right, what is good and what is kind.

It's a place where every family member should be able to go for comfort when they are hurt or sick. Joy should be shared and sorrow eased in a home.

Parents should be loved and respected in a home.

It's a place where children should be cherished and protected, not looked at as a burden.

In a home, patience should be long-suffering and arguments should be settled calmly. Honesty should be the norm.

Home is where the teakettle sings from happiness.

Begin construction on your new "home" right away, and you'll be blessed.

Sue: "I never give my secretary a coffee break."

Allison: "Why not?"

Sue: "It takes too long to retrain him?"

Would a fly without wings be called a walk?

□ □ □

If you have three quarters, four dimes, and four pennies, you have \$1.19. You also have the largest amount of money in coins without being able to make change for a dollar.

□ □ □

The most tiring exercise in the world is carrying yesterday on your back.

□ □ □

Tomorrow is always the busiest day of the year.

□ □ □

A 4-year-old boy asked his mother the meaning of the word "guaranteed."

"It means 'very good, most reliable, the best,'" his mother replied.

When bedtime came, the little boy gave her a goodnight kiss and hugging her, said, "Good night, guaranteed mother."

□ □ □

One of the best things people can have up their sleeves is a funny bone.

□ □ □

I called up one account and said, "You know something? We've done more for you than your own mother." He said, "How do you figure that?" I said, "She only carried you for nine months. We've been doing it for a year!"

□ □ □

Q: Do smart people make good spouses?

A: Smart people don't become spouses.

□ □ □

Rod: "Are you independent on your job?"

Ron: "I should say so! I go to work anytime I want to before seven and quit anytime I want to after five o'clock."

When my not-too-bright neighbor read the statistic that 90% of all accidents happen within 10 miles of home, he made a decision. He moved.

□ □ □

Pound for pound, hamburgers cost more than cars.

□ □ □

Winning isn't everything, but wanting to win is.

□ □ □

Work hard and save your money so when you're old you will be able to buy the things only the young can enjoy.

□ □ □

The problem is not lack of knowledge, but lack of execution.

□ □ □

The squeaky wheel doesn't always get the grease. Sometimes it gets replaced.

□ □ □

Bob ran home, threw open the door and yelled to his wife, "Pack your bags honey, I just won the lottery!"

His wife responded, "Oh that's wonderful! Do you think I should pack for the beach or the mountains?"

Bob replied, "I don't care... just get the heck out!"

□ □ □

Everybody's in such a hurry. Years ago if people missed a stagecoach, they were content to wait two or three days for the next one. Now they get exasperated if they miss one section of a revolving door.

□ □ □

Q: How do you confuse a politician?

A: You don't. They're born that way.

□ □ □

Oxymorons: Same difference. Temporary tax increase. Definite maybe. Exact estimate. Act naturally. Found missing. Resident alien.
