## WHAT ARE WE FIGHTING FOR?

Quite recently it was suggested that Great Britain declare to the world its ultimate aims and objects, should victory be ours in the present conflict.

Often, members of the RCAF in private conversations are asked just "what are you fighting for?". Questioners might well find the answer which our spirit of Democracy endures.

Democracy is a violent faith - a faith that provokes revolution to destroy tyranny, a force that will most surely destroy all dictators.

Democracy is an affirmation of man's spiritual integrity, of his ability to distinguish right from wrong, and his ability to choose the best course for the whole people.

It is a faith that refuses to any dictator the right to direct a man's conscience. It is a faith that does not temporize, for which men will fight mercilessly, and die bravely at home and abroad to ensure what Abraham Lincoln stated as the creed of free man the world over "That Government of the people, for the people, and by the people shall not perish from the earth."

Yet, because the democratic state is made by man, it has the weakness of men. Men are timid, men grow tired and the vision fades, and it takes courage to leave your home, your job and your loved ones, and go out perhaps to die for an ideal.

The cunning, the clever and the ambitious, urge man to betray his heritage bought on the cross, the scaffold, and the barricade. Democracies have fallen because citizens ceased to love their country; because probity decayed among its leaders; because they were rent with schism; and because they prized gold above freedom. Democracies decay when liberty becomes license, equality becomes mediocrity and fraternity becomes hypocrisy.

But democracy will never fail as long as we have people who have the courage and between the forces of democracy and Nazism, Fascism and Communism there can be no compromise.

So those of us who treasure our liberties dearly, who stand for civil, religious and political freedom, have a lot to fight for.

We have reason to be proud of our beliefs, and that is why we are serving to-day.

The chief of the Air Staff regrets to announce the death of the following personnel; Killed in a flying accident, near Dunnville Ontario on January 23, 1941.  
R68270 L.A.C. McMartin, John Saunders.

He is lost to us now, but as the years go by,  
And the past grows hazy and dim,  
In the morning, and noon, and the evening  
We will remember him.

We are proud to be numbered with rest of his friends,  
In the years before the war.  
It's a much better world, we're better men  
For knowing him of yore.

Canada called us, one and all, to the defence  
Of our home and family.  
And this quiet peace-loving lad  
Answered so cheerfully.

He knew the chances he took, but he counted them not.  
They were part of the job.  
Pilots are needed over there  
To stop the heathen mob.

And whether 't is here or over in England,  
He had only one life to give.  
That he gave it too was part of the plan  
In order that we might live.

It matters not that he never saw the foe,  
That he never fired a gun,  
All that counts is just that he died  
Working against the Hun.

## THE ART OF LIVING

To touch the cup with eager lips and taste  
not drain it;  
To woo and tempt and court a bliss--and  
not attain it;  
To fondle and caress a joy, yet hold it  
lightly,  
Lest it become necessity and cling too  
tightly;  
To watch the sunset in the west without  
regretting;  
To hail its advent in the east--the night  
forgetting;  
To snother care in happiness and grief  
in laughter;  
To hold the present close--not questioning  
the hereafter;  
To have enough to share--to know the joy  
of giving;  
To thrill with all the sweets of life--  
is living.

We wish to at this time express our  
best wishes for a speedy recovery to our  
Editor in chief who is in St. Annes  
hospital. Got back with us soon Jack,  
we need you.

# FLIGHT NEWS

LAC EVANS - RAAF - EDITOR

---W.A.G. 8B.---

8B. have just finished a week of out stations with four more days to go. Oh Boy you should hear the lads talking in their sleep now. One of our boys came in the other night too early for parade and too late for bed so he sat and listened to the rest of the boys talking in their sleep. One in particular, who had, incidently, been given the job of sweeping after class, began talking, and it went something like this:- "Brooms, brooms, nothing but brooms-----, who the h---- is sending all those I.M.I's. We also heard that by the name of Orr lost two hours sleep the other night through dreaming that he was sending morse to himself and unfortunately for him he was sending it to fast and so naturally he kept asking for I.M.I. So if you see any of W.A.G. 8B. wandering doing all sorts of funny things just look at him and murmur to the people around " Poor chap, out stations did that to him!"

We have a nice week coming up soon, namely our Final Examination week and talking of final examinations reminds me that we shall be leaving the "OLD SCHOOL" and before I go any further I would like to say a few words of thanks to a couple of chaps in particular.

Graham and Wally, on behalf of the flight I wish to thank you both for the splendid way in which you have looked after we New Zealanders. When we are so far from home we certainly appreciate being able to go to other homes where we are assured of a place almost as good as our home. Our stay in Montreal would have been very dull had not Graham and Wally arranged for us to be introduced into different homes of Montreal. Apart from that they arranged our Christmas Dinners, dances, parties and many other things to numerous to mention. In fact the Home visits were so good that I am sure that we shall be leaving many broken hearts behind when we leave. Graham and Wally please accept our heartfelt thank for your many kindnesses and we hope that in the future GOOD LUCK will be always with you.

Well folks I guess thats about all the news for this week except of course the joke of the week. So this is the KIWIS saying "Bong Swar" for some time to come.

KIA ORA .

JOKE OF THE WEEK

A sailor was cast away on a desert island, After he had been there for nine years, he woke one morning and saw a lovely young woman floating towards the beach on a barrel. The barrel washed ashore and the woman approached.

"High ho," said she, "and how long have you been here".

"Nigh on ten years," said the sailor

"Gracious," said the woman, " Then I shall give you somrthing you certainly have not had for a long time,"

" Bust my leg," said the sailor, "Dont tell me you got beer in that barrel?"

---W.A.G. 8C.---

In our first and also are last contribution to the Review the class wishes to take this opportunity to thank the "Y" for all they have done to make our stay here a pleasant one.

We are due to pass out before the next Review rolls out and according to one of our esteemed instructors if confidence would have anything to do with our marks we would pass out with flying colours. It seems a shame that we are all going to have to leave just as the instructors are beginning to learn how to pronounce " Magladry "

The two words heard most in room 302 "Piper Telephone".

Say who's the fellow who gets shaving lotion from his girl friend to keep him good looking and what is there about a certain fellow in our class that attracts the "Young" girl at N.D.G. rink.

Friendship and work go together that is why we are up in our morse "Good old Jefferies".

Do any of the boys in our flight know a girl by the name of PaulineM.

Have any of you noticed the sign on the door of room 32, pretty classy eh.

Who knows "Orkid"- enough said.

What will Moats chew instead of gum when he gets across the pond? and Watt do without s hoe polish?.

That's all boys Adios.

We congratulate Wem. 4. for the wonderful showing in their finals. Some of the chaps are being made instructors and are given their first chance at lecturing so as to improve their, "Wonderful gift of gab". So far it seems that they are doing well with their little learned speeches and so emphatically spoken. Of course their splendid success may be a result of the slang expressions they stuck into their picturesque speeches.

The rest of the class is waiting to be posted at the end of this month. We sincerely hope that they succeed in their new venture. We take the pleasure of being first to wish them all the luck in the world.

"Corny" C.W.Sparks missed the ST. Hubert bus twice, but was rewarded by going when not scheduled. It was a wonderful plane ride, "Wasn't it, Childerhose ought to know?"

Rudzik.S. enjoys his duty flight ever since the day that he had 7 days added on to his 14.

"Romeo" missed church parade Sunday to play host to a lucious brunette who paid him a visit. Won't you introduce us?

In workshops it was always drilling holes, so now they are once again reminded of the workshops by the drilling of teeth. WEM. 4. is paying its daily visit to the dentist, and oh, the blue noses seemed to tingle with pain after coming out of the dental chair.

Bedwell, seems to have almost swallowed his false teeth instead of the saliva. He couldn't seem to be fortunate enough in spitting them out as the drill was stuck in his tooth.

We saw Wright trying to study in his sleep. Corny displaying his technique at joking (pretty corny). Logey, admiring himself in the mirror (nice monkey). Jerk day dreaming of that little girl he expects to leave behind. Chilly threatening to put the boys on charge. Jars twiddling his thumbs ready to pop a silly question. Mac. full steam ahead into dreamland. Romeo displaying his wide variety of photos of girls. (aren't they ducky). Horizontal coming to life. Smithy forgetting the phones due to his new found happiness, (the coming postings). Fatty being discouraged due to a broken engagement (whose fault). Ham, twaddling along assuming responsibility of the remainder of WEM. 4. (Trying to get corporal stripes he hopes). Rudy, with a ready smile and greeting to all. P.S. he was 21 on Sunday so that accounts for that.

Now Cheerio.

NOTICE TO AMATEUR PHOTOGRAPHERS

Hand in your name to the "Y" for school camera club now being formed.

To cheery F/O Thompson, who was commander of our flights, we wish you the very best of luck at your new duties in the west. It will be a delightful pleasure when we again meet.

What we wonder is?

When will "Snoring Officer" Trask get that commission he is always talking about? Who is the fair lady that L.A.C. Woodran is dreaming of, when is it going to be "Woodie"?

Who is the airman that always takes cover in the centre rank? Maybe L.A.C. Weaver could tell us.

Why does L.A.C. Lumsden visit the hospitality house so frequently? Perhaps Kay would know.

Who is the Bing Crosby of WAG. 9A? OH Moyer you darling.

Why WAG.9A's playboy is dining weekends with the Major's daughter? Come on Fulton Confess.

To An Airman's Sweetheart

So far away you seem to be  
And yet, I sometimes wonder  
How you fare, across the sea  
In the sunny land down under.

I often see you in my dreams  
And hear you softly calling  
Or whispering, so it seems  
In shadows, when night is falling.

When at my desk in pensive mood  
My thoughts oft stray to you,  
But who am I to sit and brood  
When skies are yet so blue.

From way across the ocean  
Far from my native land  
I recall your true devotion  
And that reassuring hand.

Yes dear my thoughts are with you  
And it's plain for all to see  
My heart yearns for the love I know  
Way down under by the sea.  
L.A.C. Shoobert R.A.A.F.

The Post Office

We imagine all the airmen have noticed our post office undergoing some amazing changes as to construction, lighting and last but not least a new system. The system is new to the wireless school but is familiar to all as the setup is the same as in the manning pool, that is the spilt alphabet system, which includes letters, parcels and papers arranged that way.

The main idea of the change is a speed up and thus will give the airmen a longer noon hour and no standing in 2 lines for parcels or Reg. letters as in the past. We wish to thank the various officers

## Flight news cont'd.

who have taken a personal interest in the mail situation.

## Bomber Guard News

Rejoicing is once more the spirit of the famous(?) Ottawa bomber guard of room 53 as it welcomes back six of its number who have just been released from suspicion of harboring scarlet fever germs. Our sympathies have gone out to operator 2 at Morrishurg for the past three weeks. Welcome home George.

The remainder of us wish those of the guard attached to WOG. 10A success in their finals. Why not try studying Jim, it seems to help the Duke.

We were sorry to hear that Skid's sudden departure from our midst on Wed. was due to the illness of his father. Here's to his speedy and happy return.

Buck apparently couldn't stand the pace set by WEM. 7 for we now see his name on WEM 8's roll call. Getting soft, Chum? But perhaps the nurse at the general had something to do with it, or was he following Charlie Potts lead?

When will a certain Toronto boy make up his mind as to whether he prefers Montreal West or his home town.

We, the bomber guard take off our hats to those instructors who through grim perseverance have succeeded in drumming some knowledge of radio theory and application into our heads.

We also wish to congratulate F/SGT. Allen. We have watched him with pride in his rise in the ranks since he first came to Ottawa as our discip. Have we improved Flight?

Does Pat. really bowl on Tuesday nites or is it that he doesn't like P.T.?

## W.E.M. 8.

Certain of this noted class want to know how their class senior got 95% in cent exams. How about it Norm.

Most of us extend our sincerest thanks to Cpl. Young for his generosity with the marks. We really didn't think we knew so much.

The class wonder-- will Brisco prove an asset to the class??.

What does the future Mrs. Adams's look like? Couldn't be Eve could it?

What did we do to Regina to have that town pass Blore off on us?.

Scotty, when will you love us enough to stay by our side in and all through workshops?.

We now feel sure after Tuesday that we have the best softball team and umpire in the school. Where's the gang that can prove we haven't?.

Who was it that said " Making tool-holders is duck soup"? His finished product looked just like that- lumpy in parts.

Why is " The gentle Muse" so regular in appearance during theory and application lectures? Can it be?-- "that is to say Oh well. Ask Cpl. Young for particulars.

Wem. 8 should be rejuvenated next week with the return of our virile specimen of manhood, Ac2 Burns.

How we have missed Mc Lachlans inquiring turn of mind this last few weeks, from now on our lectures should be fully occupied.

When are we going to have that lecture by Gherardi the second, Corporal?.

## The Awakening

I dreamt I dwelt in marble halls  
Surrounded by riches untold;  
There were gorgeous pictures adorning  
the walls,  
And ornaments silver and gold.

A motor car splended I also possessed;  
I elegant manner I always was dressed,  
And life knew no discord or friction  
But suddedly just like a bolt from the  
blue,  
There came a most terrible blast,  
Which told a poor airman his dreams were  
not true,  
And his hours of slumber were past.

For Boyd with bugle of brass had essayed  
A blitzkrieg on dreamlands sweet glory--  
Unmoved by the curses against him arrayed,  
And language descriptive and gory.

But if you would ask for a wonderous effect  
(though your eyes may become slightly  
moist)  
Just witness this bugler-boy standing  
errect.

As each morning the colours are hoist  
And on the " Last Day " when the trumpet  
will sound,  
And we hope with the Angels to sup,  
We may sleepily murmur: " There's Boyd  
on his round--  
Oh hell, it's time to get up.  
Eh See Won.

## Room 33A

Who is the bright player who suddedly  
got the habit of laying in his bunk at  
every opportunity looking up in the air  
with a far away look in his eyes until the  
boys found out he had a picture of his  
"one and only" wired to the bottom of the  
top bunk.

We understand a certain " Western"  
lad is taking french lessons at the  
" Army and Navy " and wonder if " Bill "  
is learning any--- french.

Who is the new marker for Wem. 8 and  
is he only a substitute for B.B. or is he  
trying to get B.B's job permanently.

Flight news cont'd.

Who is the new "glamour boy" of 33A who went up to St. Adele for a week-end skiing and spent it sheeing. We wonder if Irene is able to think straight yet after the week-end "Blitz".

We wonder if a certain young man has really been bitten by the "love bug" or is it only "spring fever" also if Phyllis really will have the inside track from now on? We wonder.

Room 33A has taken on an almost eerie quietness since the S.P. caught up with some of its most boisterous members and wont seem the same till they get back.

There's a very lost and dissatisfied look in the eyes of a certain promising parachute jumper who was rounded up with the positives but he's probably worrying about his "digger boy" hair cut which has grown so long even his friends dont know him.

Is it true that E.W.H. is taking "only" a hospitable spirit in showing that 20 year old "Londener" the hot spots of our metropolis.

Due to his bedside manners when his "exotic" was convalescing, from now on it will be "Doc" Marsh.

It seems the boys have seen a "Hampstead Belle" with a R.C.A.M.C. pin adorning her coat. Is her heart "over the re" K.C? who knows?

That's all this week but be careful boys as Smart and Peep will have your names next week.

----- W.A.G.8A -----

Some of us would like to know how "Norman" and "Harry" like "Demarara".

Was the "Hemorrhage" cured alright.

24 W.A.Gs from 8A began their flying operations to-morrow. Dont forget to get air sick boys.

---W.O.G. 10A---

Things we would like to know:-

Why is it that Bill Martin is always visiting his aunt when a certain one of his conquests calls for him via the front door.

Who is the swell blonde that Lawrence is always telling us about and how and where in the hell does he get 'em.

Where did Ivamy and Hayes get all these gorgeous (simply gorgeous) hand paintings and why did they stop coming right after St. Valentines Day, eh Johnny?

When Mandigo is going to stop embarrassing instructors and particularly F/O. R.O. Norman with his off key snoring during lectures.

When Messrs. Gracie, Brown, Buchanan and Tibbett are going to realize that the (i)s have to be dotted and the (T)s crossed to get by with a certain Procedure instructor.

When is "Ugh" Mullen going to learn that "P.T." is a wonderful builder-upper and will, if taken regularly, relieve him of those Saturday night "Jumpers Strains".

Why Schroder, the fifth columnist, and Honsberger, the would be deserter from the ranks of the Benedicts, don't form a band and "slay far, far away".

That will be the Frosty Friday, When:-

Platt rushes out to do P.T. or Ivamy says "I think i'll stay in and study to-nite", and Hayes stops "selling tobacco" Or Hammond stops playing the field.

If "Angel" Buchanan meets "Killer" Tibbett" for the title, and Karam forgets to put his elbows on the key or Drake stops the show in the "Esquire club" and Eyeles meets the guy who closed the Wet canteen early one night.

--10A. on Parade (Pome)--

With corporal Ivamy out in the lead, the flight steps off with a burst of speed on the right or left wheel, every file is straight as we swing right along behind marker Drake. But as arms come up to a shoulder height there's a ripple in the center that marks the flight, of our short legged friends who find the pace, not suited to them but more like a race.

So there goes a 48 and 36 hour pass too, For the flight who turned out the best drilled crew

But are we downhearted, here's a word to the wise,

We are purchasing stilts for those short legged guys.

And when the next competition comes to the test

10A. will be in there, pitching their best And our marching and drilling will bring that pass home

To the flight who have earned it through ingenuity alone.

As we write these notes we are getting ready for bed and also for our finals which start tomorrow and we extend our sincere sympathy to Cpl. Ivamy, Ac2's Hammond, Honsberger, Mandigo and Platt who are in quarantine. May their recovery be rapid and the best wishes of all the flight to them.

Toni the fish peddeler "A son of the beach".

I sella da feesh, an sella da crab,  
I am notta so good, an I notta so bad,  
I leev in da shack, where da sea-gull he screech,  
I am Dago Paroni, a sonna da beach.

I gussa maybe you tink I am onea beeg fool  
'cause I newair beena goa to Canadia' school,  
An' I don' knowa so good the Canadia speech  
I jus' Toni da Dago, a sonna da beach.

Flight news cont'd.

Dey saya to me "Toni", whatfor you you stay here?  
You maka more now if you sells da beer,  
I say " I know care if I nevair get recch  
I lika to be jus' a sonna da beach.

Lasta week I hear two fella talk on the san',  
'bout fella name' hitier, a beeg crazy man,  
I don' hears so good wat dey say in da speech,  
But it soun' like he too be a sonna da beach.

Now, I don' teenka dey mean he be fella like me,  
'cause he don' leeva here ona da beach by da sea  
So I don' unerstan'; maybe him and me each,  
Be two deerferent kind of a sonna da beach.

Vell, I'm justa Toni da dago an' dam glad I am,  
I'm glad I not wat you call dictator man,  
'cause someaday wen I die an' Heaven I reach,  
Dey will say " HI Toni, come in, youa sonna da beach".

Cpl. T. Armstrong.

My Friend has Joined the Airforce

My friend has joined the Airforce  
To fly for the red, white and blue.  
He's stationed now at training camp  
With his comrades brave and true.

His hands are as steady as a rock,  
His nerves are just like steel,  
And I am sure he'll hold his own  
Against the enemy wheel.

He'll go into battle with all his heart,  
He'll dive, He'll roll, He'll fight,  
And there isn't an enemy in the sky  
That can stop his glorious flight.

My friend I may never see ag ain,  
For he's reckless, carefree, and gay,  
And he'll take chances in the air  
When the battle is under way.

And if he should lose up there in the sky,  
His soul will go winging thru,  
Till it reaches our Saviour's hom on high  
Beyond the azure blue.

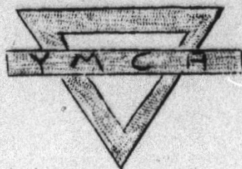

Earl Sauve. 9A.

YMCA News Con't:

April 29th: CBC Radio Broadcast

COMING MOVIES

Monday, April 7th:  
The Lion Has Wings  
Thursday, April 10th: Mrs. Wiggs  
Monday, April 14th:  
Honeymoon in Bali  
Thursday, April 17th: Midnight  
Monday, April 21st:  
Two Bright Boys

DO YOU KNOW?

With EASTER approaching the YMCA has made arrangements to accommodate any Airmen wishing to send Easter greetings, flowers, etc.

Watch for Soccer, Cricket, Lacrosse and other out-door sports that have been arranged for the personnel of # 1 Wireless School

The Y is going to use the Skate room to issue sport equipment such as, softballs, footballs, volleyballs, etc. Remember you must sign for the equipment and return it immediately after use.

Airmen who have not sent home a First Year Booklet of the Y's War Work should do so as it contains some very interesting facts.

EDUCATIONAL TRIPS: Due to arrangements made by F/O Langlois a number of men enjoyed a visit to the Mtl. Signal Station. The Y is planning to have a number of Saturday afternoon Educational Trips - so look for future notices.

NEWCOMERS  
Writing paper, envelopes, post-cards, books, magazines, out-of-town papers, checkers, chess, athletic equipment, etc. may be secured from the Y. Information re dinner parties, home visits is available at the Y office.

LATE MAIL:  
Airmen who have last minute letters to mail may leave them at the 'Y' office. During the month of March some 9000 letters and 300 parcels were posted.

PROGRAM IN RECREATION HALL

Monday night: Movies  
Tuesday Night: Bingo  
Wednesday Night: Concerts  
Thursday Night: Movies  
Friday Night:  
Saturday Night: VARIETY PROGRAM  
Sunday:

CONCERTS

The following concerts have been arranged for the Personnel of No. 1 Wireless School during the month of April in the Recreation Hall.  
April 8th: Blue Bell Bullets  
April 23rd: Rotary Club Revue  
Con't at bottom of 1st column.

Then Adolph went into a conference  
 With Goering and Goebbels and said  
 You lions been rude-'es ignored me  
 And Goering said "nonsense - 'es dead.

Thats better said Adolph- much better  
 I'll invade him right now without fail  
 So he reached in the cage very brave like  
 And twisted the poor lions tail.

The lion just snorted and roared like  
 And Adolph 'e got quite a scare  
 Till 'e saw Mussolini with Venus  
 An 'armless girl too as it were.

They were 'aving discussion or something  
 And Benito was losing the fight  
 And 'e called on Herr Adolph to 'elp 'im  
 Which didn't seem proper or right.

But Venus at that got quite blazing  
 And withered them both with a glance  
 I've a lion she said and its yonder  
 Who'll help me save the honour of France.

### ADOLPH AND THE LION

Without any definite apologies to Marriott  
 Edgar (who will understand)

There's a horrible place called Munich  
 For beer and deceit - its a one  
 And Chamberlain he took a trip there  
 To visit Herr Adolf the 'un.

A queer little 'un was Herr Adolph  
 With his 'air plastered down(you could tell  
 Held a stick with a Swastika 'andle  
 And his poor upper lip was a sell.

They talked od the trouble in Europe  
 And agreed that at once it should cease  
 And Chamberlain he was delighted  
 To 'ear 'itler talking of peace.

So straight away 'ome went our Neville  
 His 'eart all a-joy and sublime  
 'E saya 'ERE you are mates-see-I've done it  
 We're going to 'ave peace in our time.

But Neville was British and honest  
 And he trusted this 'orrible 'un  
 For he spoke to 'un quiet-not 'rash like  
 Which is proper when all's said and done.

But now Mr. Chamberlain left us  
 Lets take off our 'ats to 'is name  
 And know that 'es with us in spirit  
 And 'is kindly eyes twinkle again.

But now Adolph's 'eard of the lion  
 With 'is nose as were covered with scars  
 Who lay in a sommolent posture  
 With the side od 'is face to the bars.

And seeing the lion so peaceful  
 --so tired and old as it were  
 He shouted and yelled Ruddy murder  
 But British him--'E didn't stir

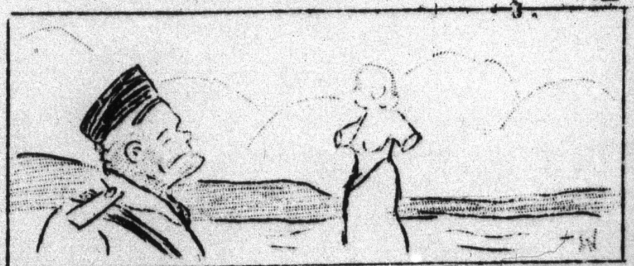

With that both Benito and Adolph  
 Retired to discuss means and ways  
 With Goering and Goebbels and others  
 'oo showered poor Adolph with praise.

They told 'im that Venus was bluffing  
 That lion was hungry and weak  
 And Venus 'ad no arms nor nothing  
 To 'elp in the war of the weak.

So Adolph felt safe about lion  
 And said to 'is pals-'oo's afraid  
 I'll soon show these British 'oos master  
 And 'e sat down and mapped out a raid.

Then Adolph got braver and braver  
 He crept up till 'e was quite near  
 -took 'is stick with the swastika 'andle  
 And pushed it in our lions ear.

You could see that the lion didn't like it  
 For giving a kind of a roarl  
 He pulled Adolph inside the cage with 'im  
 And swallowed the little 'un 'ole.

## THINGS YOU SHOULD KNOW

The instruction and training you will be receiving at No. 1 Wireless School is done for a definite purpose, which is to fit you for the active duties you will shortly have to perform. You should take full advantage of the facilities that will be offered you, in order to maintain the fine tradition that has been built up by your predecessors.

### DEPARTMENT

This is the largest, best equipped and most efficient Wireless School in the Empire Air Training Scheme. The general Department of each individual airman is a most important factor in maintaining this high standard. Follow all regulations as to discipline and compliments to officers, Senior N.C.O.'S and instructors. If you are in doubt about anything, ask any N.C.O. and he will assist you. The N.C.O.'S in this School much prefer to steer an airman out of trouble -- so don't give them cause to put you "on the carpet". Do your share in this regard and every N.C.O. from the Station Warrant Officer, down to your class senior, will help you one hundred percent.

### DAILY ROUTINE ORDERS

D.R.O.'s are posted **daily** in the Recreation Hall, in front of the Mess Halls and on the 4th floor. Read them every day and obey them and you can't go wrong. Watch for your name for guard duty, your class posting for duty flight, your name for medical or dental inspection. Every airman should read D.R.O.'s at least once each day.

### "OUT OF BOUNDS" AREAS:

The following sections of this building are "out of bounds" to all airmen unless specific duties necessitate their entering these areas:

Officers quarters-5th, floor;  
Officers Mess-1st floor;  
General Offices-West corridor  
2nd floor;  
Wing Orderly Office and  
Squadron Orderly Offices;  
Central Registry.

Outstations-5th, floor;  
Sergeants Mess-3rd, floor;  
Stage-Recreation Hall;  
Kitchen;  
Detention Barracks;  
Guard Room.  
Station Orderly Room.

### WING AND SQUADRON ORDERLY ROOMS

These offices are out of bounds. Do not go to them unless you have a specific duty to perform in going there or unless you have been ordered to report there.

### DRESS

Strict adherence to issue is insisted upon in this school. The wearing of any article not issued to you from stores will probably get you "on the carpet". Keep your uniforms and great-coats pressed. your buttons shined and your boots polished.

### COMPLIMENTS:

Do not salute in the building, unless speaking to an officer **OR** entering or leaving office of commissioned rank. Eyes right or eyes left when passing officers in the building. Stand at "attention" when speaking to or being addressed by a Warrant Officer.

### BUNKS AND SLEEPING QUARTERS:

The best indication of an airman's good-breeding and efficiency is the condition and appearance of his bunk. See that your bunk has a bed-tag on it and that it is made up according to pictures posted in hallways. Clean sheets and pillow cases may be secured weekly without charge from Room 60. Each flight should take pride in the general appearance of

## THINGS YOU SHOULD KNOW

its room. Keep your floors clean and tidy, windows washed and windowsills clear of non-essentials. Your flight-senior will secure mops, soap, pails and brooms for you. Send your laundry out often. Everything possible has been done to make this a model barracks, it is up to each individual to keep it that way.

### CANTEENS:

The Dry Canteen, situated in the Recreation Hall, carries a widely varied stock of soft drinks, cigarettes, tobaccos, confections, toilet accessories, sports equipment, and wearing apparel. Hours are 10 to 10:30, 12 to 1330, 1630 to 2200 hours on week days, and 1200 to 2200 hours on Saturdays and Sundays. Bottles must not be removed from Recreation Hall under any conditions.

The Coffee Canteen, also in the Recreation Hall, serves coffee, hot-dogs, sandwiches, cakes and hot-oxo from 1200 to 1330 hours, 1630 to 2200 hours on week days, and from 1200 to 2200 hours on Saturdays and Sundays.

The Wet Canteen is situated on the first floor, East wing and sells beer, cigarettes, and tobacco from 1630 to 2200 hours on week-days, and 1200 to 2200 hours on Saturdays and Sundays. Three billiard tables are available.

### Y.M.C.A.

The Y.M.C.A. office is located on the second floor opposite the Recreation Hall and is managed by Grahame Watt, assisted by Wally Clarke, who are on duty at all times to meet and assist airmen. Invitations to private homes, dances and sport events are arranged, and free movies, bingo games and concerts are held in the Recreation Hall regularly. A splendid library is available during Y.M.C.A. hours. A general information service is conducted here.

### SPORTS

The Airmen's Canteen Fund and the Y.M.C.A. have supplied hundreds of dollars worth of sport equipment of every type. This equipment may be borrowed by Airmen applying to the Y.M.C.A. office. This equipment is for your recreation and pleasure. Make certain it is returned properly after using it.

### FREE STORAGE FACILITIES

Room 5-A sub-basement, has been equipped with 500 large cartons for the safe storage of surplus clothing, summer kits and personnel belongings. The use of this convenient service will assist you in keeping your bunk and rooms tidy and uncongested. Apply at Dry Canteen for use of this service - it is absolutely free.

### MEALS

Hours are as stated in D.R.O's daily. Airmen must stand in line for meals and the more orderly the line the more quickly you will be served. Each airman must remove his dishes and cutlery to the dish-washing room in rear of mess-halls. The Orderly Officer visits each mess-hall regularly. If you have a legitimate complaint state your complaint briefly, and it will be attended to. Don't make complaints about unimportant matters as they have probably been noted and arrangements already made for their correction.

### SCHOOL AND S:

Dances are frequently held in the School Recreation Hall. These dances are managed by the Airmen's Entertainment Committee and paid for from Canteen Funds, with the permission of the Commanding Officer. The continuation of these dances and the frequency with which they are permitted by the Commanding Officer is dependent

## THINGS YOU SHOULD KNOW

on the conduct of the airmen and their lady guests attending them. Every airman should therefore carefully avoid any abuse of these privileges.

### CLASS SENIORS

Your Class Senior is elected by the members of your flight and is chosen for his ability to carry the many responsibilities of his job. He is in charge of your flight at all times when on parade, while moving from one class-room to another and while in your sleeping quarters, and he must be obeyed. Your flight or class senior can secure many privileges for you if his flight conducts itself properly and should have the full co-operation of each individual man at all times.

### LAUNDRY AND DRY CLEANING

Laundry services are open daily from 1630 to 1830 hours in the East wing sub-basement. Laundry is returned two days after its acceptance. No laundry service on Saturday or Sunday. See that your laundry package has your name and number on it. Dry cleaning service is available daily from 1630 to 1830 hours. Your uniform or great-coat will be cleaned and pressed and returned in time for morning parade the following morning.

### BARBER SHOP

The Barber Shop is located in the west wing basement (near Post Office.) Hours are 1630 to 2000 hours on week-days and from 1000 to 1800 hours on Saturdays.

### TECHNICAL REFERENCE LIBRARY

A Technical Reference Library where trainees may use any of the many excellent technical books has recently been opened in Room 411. Hours are -- Monday to Friday 1745 hours to 2230 hours, Saturdays and Sundays 1330 hours to 2230 hours.

### POST OFFICE

The school post office is on the basement floor, opposite the barber shop and is open daily from 0900 hours to 1700 hours and 1800 hours to 1900 hours. Have your mail addressed properly and be certain it bears your Air Force numbers.

### SICK PARADES

Avoid reporting on sick parades unless you have a legitimate ailment. If taken ill after sick parade, and excused by your instructor, you may report to Orderly in Sick Quarters on Second Floor.

### BANDS OF AUTHORITY

The Orderly Officer Orderly Sergeant, Orderly Corporal, Service Police and Internal Guard are all equipped with official arm bands.

### GUARDS

Take your turn at guard and duty flight duties without grousing, and if you feel wronged speak to your Squadron disciplinarian. He is there to help you and correct you. If challenged by the guard at night, stop instantly and answer "friend". If in a group advance past the guard or sentry only one at a time. Respect the guards' authority as you may be on the job at anytime.

# SPORT PAGE

LAC COOPER - EDITOR

## SPORTS STOCK-TAKING

While taking inventory of our sports equipment the past few days, it occurred to us that a stock-taking of sports activities would be in line as we start on our second year.

Even though we have no Allen Cup to show for our hockey efforts-- not even a city championship in softball, soccer or any other of the multitude of sports we've competed in--- we have introduced a new name that will be reckoned with as we repeat the trk from softball to hockey.

Without trying to excuse our fate, we feel that the past year was only seen us getting organized in the providing of working sports for 1500 men. This year will see us out in front in all lines, Providing--the teams get the support of every Airman and Officer in the Unit.

There is no need to take up space outlining our sports programme for the coming year. We can be in every sport and we can come out on top.

How about it fellows?---All you have to do is listen to Grahme's announcements over the PA system at noons and do your stuff.

## SENIOR N.C.O.'s.

The highlight of the season as far as we are concerned was the struggle between the Officers and our fast-breaking (literally) hockey team at the Forum last night. When the WO1 Davis promised we would clean their "clocks" he didn't realise how true that was. The score, 4--3 doesn't indicated the play, as Doyle tied it for the Officers by scoring against his own team. The Officers are to be congratulated for their spirit in accepting defeat upon defeat at the hands of their superiors upon three occasions. Possibly they can suggest some other sport to challenge our mess. And incidently, that challenge stands good to any organization in the school who would like to compare their strength in anything from Billiards to Hockey.

### THINGS WE WOULD LIKE TO KNOW:

1. Who is the flight sergant who is communicating with the well-known " advice to the love-lorn"?
2. Where the new WO1 learned all the fancy steps when he professed absolute ignorance to the art of dancing?.

3. If it is true that the Officers tried to have our goalie shanghied into night duty so that he couldn't play? perh aps "Frank" can explain.

4. How our stellar centre ice man got that terrific scar above the eye?.

5. If it is true that the Forum people offerd our defence a contract to clean the ice between periods next season.

6. When the Disciplinarians are going to be remustered to Administrative Clerks group A.

With the spring reaching around us so rapidly, it is expected that our Blokes will be fielding a soccer team that will stand up against anything the boys want to offer.

### Highlights of the game:

First goal for NCO's was scored by our Flying Scotsman Cpl. Hyslop of the Mid. Corps who after letting go of the puck literally cleaned the ice with his pants.

Immediately following this our dashing Sgt. of orderly room made a spectacular for the opposite end od the rink and banged one between the legs of the goalie making the score two up.

The Officers opened up now with a goal by F/O Fisher who really bowled over our defence and completely fooled our MF goalie. Our Padre who was going to town with the boys showed his calibre whenhe skated through the whole team? for a well earned goal.

While Sgt. Barrett was winking at a pretty young thing on the sidelines F/L Patrick forgot he was playing hockey and made a flying tackle. Barrett immediately reciprocated with a round-house to the mid section. After this a free for all ensued with G. Watt sitting on top of a mass of humanity sprawled on the rink, rolling a cigarette.

Our blushing Sgt. of the Mid corps with the cheers of the lady fans behind him, spurted through the Officers lines putting the NCO's in the lead once more. Our fighting Irishman Doyle star centre got mixed up in the excitement and flipped one past his own goalie.

With the score tied and game nearing the end a real struggle insued for dividing points. Doyle errased his mistake and banged one in for the NCO's making the final score 4---3 for the NCO's.

BOWLING

Tea m bowling since Christmas has been badly hindered by the quarantine and postings, but picking up teams at the alleys has given some close and interesting competition. Quite a number of men have been very keen, turning up almost every week. Several had never bowled before. One New Zealander rolled 202 his first game; we won't mention his second. One night another got 4 zeros as the start of his first game and finished his second with 5 successive strikes.

The high game for a 4 man team was 906 (WEM's) and second high 868 (HQ). One game between two WOG teams finished 821 to 820.

High scorers among the regular bowlers since Xmas are:--

High Single: Howell 343, Miles 330, Patterson 308, Sweet 305.

High Three: Howell 782, Miles 741, Patterson 715.

High Average: for 18 games or more: Howell 217, Patterson 202, Ulyst 199  
Sweet 196, Cambell 187, Marshall 186, F.Stevenson 185,  
Martin 183, Miles 182.

Bowling every Tuesday night at Park  
Bowling allies register at the "Y".

Late Flight news.

WAG. 9C.

What would the instructors say if a little fixing up Cooney came to class on time?

Who was the lad who took the plunge after having two milk shakes with 8 eggs?.

Who is the marker in 9C with the big understanding that can be turned on a dime if the dime is large enough.

Who was the man in 9C who dropped the smallest bridge in the world making him look like popeye; on church parade on Sunday?.

What would McKinnon do if he didn't have something to eat in class?.

General News

Cpl. Wilson.

Well lads it is with regret that I have to write this article. We have lost our Major Bowe's of the #1 Wireless school namely Cpl. Wilson. He has recently been transferred to Trenton. Both on and off parade I think fellows will agree with me that he is going to be greatly missed at this school, especially as our Master of Ceremonies on Amateur nights.  
P.S. The Editor and staff of the Review wish him every success in his new venture.

Following twenty of the compatriots from the British Colony in the Argentine, five determine young men from Buenos Aires whose civil occupations ranged from perfume to automobiles arrived this morning prepared to enlist in the Royal Canadian Air Force. The five are T.E.U. Lister, age 27, who was employed in the cotton industry in Argentine; G.A. Cadmus, aged 26 son of the American father and British mother who was with General Motors; W.H.D. Lacey age 21, a partner with his father in a tailor and sports wear firm; H.R. Pinsent aged 27, who was in the perfume and toiletry business.

All were born in the Argentine but all are enthusiastically British. Their ambition is to become pilots under the British Commonwealth Air Training Plan.

All are good-looking clean cut young men who were very active in sports in Buenos Aires.

"We knew each other playing rugger down there," Pinsent explained "We either played together or against each other for some seasons past and after the first group left from Argentine, we got together and decided we would be the next to go".

Pinsent, incidentally, was scheduled to come to Canada with that first group of twenty but was unable to clean up his business affairs in the time to go away.

Youngest member of the group, W.H.D. Lacy, in addition to being a rugger player is also well known in Buenos Aires as an all-round athlete. He was a polo player of note in a country famed for its polo players. He was also a ranking tennis and golf player.

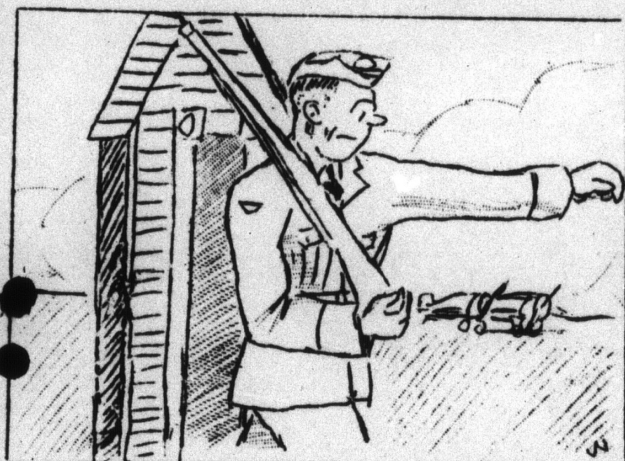

The five got a real thrill on their way to Canada when they saw the hull of the Graf Spee which still shows above the mouth of the Platte river. None of them actually saw the epic sea battle but they explained that one of the boys who had preceded them to Canada had, on the strength of rumours, "gone out for a quiet sail" and arrived at the scene of the fight in time to see the scuttling of the German pocket battleship. All the crew of the Exeter, the heroic British Cruiser were well-known to the group.

The British Colony in the Argentine totals about 50,000 persons with about 700 of them now serving with the British Forces the group from Buenos Aires they said.

I AM A WAG.

I am a WAG; I've pretty proud of it too. Yessir, since people look down on WAGS, while others look up to them, and

WE FLEW, ALRIGHT!!

when you juggle them around, now I guess they'll come out somewhere around the top of the heap. There is a rumour going around now that they are almost indespensible across the pond too, but I'm not prepared to say myself --- not yet.

I'm straying from the subject I had in mind now, so I guess I'd better try and get back to said subject, and see if anything develops.

First of all, I joined the airforce without even a hazy idea of what it was all about. I wonder if I do now. I had an idea that I was going to fly. I wasn't wrong. I flew around Ottawa for nearly

IT GOT MORSE AND MORSE

three months with a rifle over my shoulder at the slope and various other positions, but keeping the "saboteurs" away if any.

Now here at the school it's different. They removed the "ag" from "WAG" and started pounding morse into us -- morse, more morse, and morse. It's a

Never the loss, I'm still happy to be a WAG, yessirce mors may have me a bit unbalanced, but no matter what my mental condition, I'm happy.

There is a certain NO 1 on this station for whom I have nothing but the greatest respect who has me all labelled --- but let me bring this lenon to a close first. Woodman the wigging WAG.

SPECIAL

We take great pleasure in publishing a letter which has just been sent to us by the "Mother" of one of our lads, expressing her great appreciation for the many kindnesses performed by the Y.M.C.A. for her son and the other lads at the school. This good lady, after having read the "Y" booklet sent to hereby her son, had her donation waiting for the canvasser to call.

Now come on fellows tell all your friends about the good work done by the "Y" and tell them to dig deep and chip in their dollars.

London, Ont.  
March 28th 1941

Dear Sir:

I am taking the pleasure in writing you, to express my thanks for your kindness to my son, he speaks so highly of you, how good you have been to the boys in the wireless School in giving them so much pleasure and kindness - those are the things that uplift the youth of to-day when they are so far from home.

We had the canvasser here to-day for the Campaign that is on for the YMCA and we sure gave him a good welcome, he knows ----- and he was pleased to read the letter ----- sent me, with the book you gave him to send me as he was a soldier in the last war he knows the good work you do, in giving your time and work for the good of our boys, God Bless them. ----- will graduate Monday and we sure are proud of him, he always was a good boy and we sincerely hope that he always will be one.

Again thanking you hoping the Lord will preserve you, and give you health and strength to keep the good work going, I remain,  
Yours sincerely,
